Introduction - FIBRAIN DATA Structural Cabling System

Structural cabling became part of our life, it is present in every place of our being. Requirements on quality and its durability cause its constant development. Omnipresence of services convergence, coming into existence of more sophisticated systems creates new activity fields.

Anticipation of norms, fulfillment of users requirements, durability for at least 25 years these are main goals of FIBRAIN DATA system. Thanks to thriving R&D department and well equipped laboratory we are able to provide the best parameters.

Company

Company's mission is partnership in co-operation with local and abroad companies within sale and distribution of the most modern IT Technologies. Our goal is to create reliable brand.

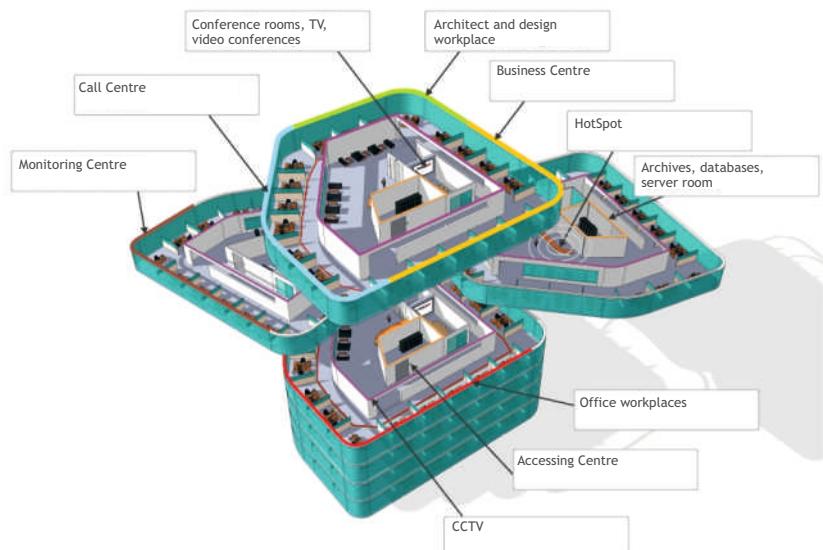

FIBRAIN employees specialists of high class of structural cabling field that ensures nice and easy realization of your investment.

Our technical advisers offer you helping hand with all problems related to components choice and their installation. We are producer of systems based on different transmission means. We produce either fiber optic solutions and based on copper that are tailored for given case.

Knowledge

Experienced employees of R&D department, Structural Cabling Department and Design Department forming team of young people who act with passion, answer every question. Thanks to base of one of the most modern research laboratories in Europe we are able to test system operation in different conditions.

Appropriate choice of materials used for production of individual components ensure the best system's transmission parameters and its operation during at least 25 years also assuming errors ratio zero level of errors.

System

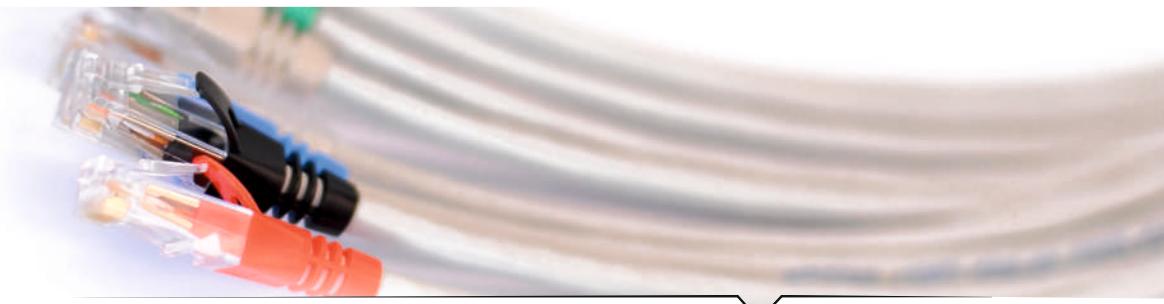

Main idea of FIBRAIN DATA is creation of solution tailored to customer's needs in the best possible way.

Dedicated meetings with installation technicians often result in improvements in our components and thanks to full control on product the improvements are implemented almost automatically (we are not conditioned by foreign capital though we can prepare products tailored to present needs of our region). We managed to create system corresponding to needs of wide circle of customers, the system of the XXI century.

Reach solutions portfolio allows to adjust to individual configuration of IT network at the same time providing margin for future applications. Our own requirements on this system resulted in exceeding conditions given by norms ISO/IEC 11801:2002, EIA/TIA-568-B.2.1, EN 50173:2002.

003

01

Solutions

Our solutions are divided into specific systems, which ensure compliance with the various categories set by the committees for standardization.

Express 5e

Express - Complete D-class system, includes all components category 5e which are required when structural cabling systems are installed. System is available in 2 options: UTP, FTP. In both categories are based on cables with increased frequency up to 200 MHz. Additionally system includes multi-pairs cables category 5e, which fully satisfies requirements of norms: ISO/IEC 11801.

Quick 6

Quick - Complete E-class system, contains all components category 6 which are required when structural cabling system is installed. Through the wide offer of installation cables (U/UTP, F/UTP, U/FTP, F/FTP), as well as increased frequency up to 500 MHz, we are able to meet requirements of broad group of professional consumers.

Rapid 6a

Rapid - Complete EA-class system, contains complete range of category 6A components. Solutions fully provide 10Gbps transmission in complete 100m of transmission channel. System is based on shielded version of transmission channel.

Ultra 7

Ultra - Solutions prepared for a future applications, ensuring category 7 and 7A assumptions. Based on high quality of tele-informatic cables as F/FTP.

Voice

Voice - System prepared to be used in digital and analogue telephone signal transmission. Complements full tele-informatic solution.

FIBRAIN

Fiber - Broad group of components used for information transfer between specific distribution points. Wide offer of components allow to create 100% structural cabling system, which uses fiber optic cable as a medium of transmission.

Supplement of the above is division of EBOX electrical components, complete customers requirements for electrical /logical solutions. For the end user points we use French standard 45x45 mm. Full offer of adapters allows to join in one endpoint cooper, fiber optic and multimedia solutions together with dedicated power supply.

Compatibility

All our products have been examined by an external, independent laboratory as a components and also as a transmission channel and permanent link. For an additional protection all are measured on the daily basis in FIBRAIN internal laboratory and also reviewed by the installers when implementing. Components are also examined by de-embedded method.

Fibrain Academy

A rapidly growing training center, with convenient location of company branches, allows to increase the knowledge of Designers and Installers just next to their residence. On the lectures dedicated for a small group of interested people theoretical and practical knowledge is provided. We put a strong pressure also on the individual meetings at business locations of our partners. We are not limited to the area. Team of our trainers is open for a discussion, knowledge exchange. Schooling is always adjusted to the partner need and preference.

Certified Installer

Authorized Program of the Certified Installers of FIBRAIN DATA is directed to business bodies which are focused on project design, installation with implementation of structural cabling system. Program conducted by our Product Managers allows to provide wide knowledge which is necessary to understand and install structural cabling system. During the training, knowledge about norms, standards, international practical instructions also installation methods and available components in the market is introduced. Training also includes practical part, which shows installation of individual components. Training aim is to teach how to implement structural cabling system. That is covered by 25 years Warranty for system operation and application.

01

25 yrs
warranty

Certified Integrator

Authorizing Program for the Certified Integrators of Fibrain Data is directed to companies with high installation experience of our products. Proficiency in installation is confirmed by long term experience and also implementation of Certified Fibrain Data Systems, covered by our 25 years Warranty.

Certified Designer

Meetings in design offices allow us to get a knowledge about latest investors requirements. Designers can gather the knowledge about latest norms, editions and conditions which are placed nowadays ahead of modern structural cabling systems.

Warranty Program for Certified Fibrain Data Installers

Due to high requirements of professional environment we are able to ensure 25 years warranty for products operation. Each tele-informatic system which consist of Fibrain components, implemented by Certified Installer, can be covered by Warranty Program.

Product Warranty

All components of Certified Fibrain Data System will be free from defects on materials and workmanship.

System Warranty

Transmission Channel of the Certified Fibrain DATA structural cabling system fulfills the parameters according to category for which it is dedicated and designed. Warranty do not cover products which are incorrect used, storage, installed.

Application Warranty

Fibrain DATA Certified structural cabling system is free from defects, which makes enables signal transmission based on specific protocols and network applications. That concerns application and protocols which are set by the committees for standardization IEEE, ANSI, TIA/EIA, ATM Forum and transmission requirements based on standards TIA/EIA 568-B.2 and/or TIA/EIA 568-A, TIA/EIA568-A-5, ISO-IEC 11801 2nd edition, ISO/IEC 11801, EN 50173.

Fibrain Data certification procedure

Certified Installer after project accomplishment is required to submit all necessary documents, especially as-built documentation, measurements of complete network done on authorised device with valid calibration term. As a next step Fibrain examines measuring results of the network and submitted documents. In case of any doubts, Certified Installer is required to correct any deficiencies and complete documentation. After completion of the whole procedure Fibrain issues warranty documents, which must be transferred by Certified Installer direct to the project Investor.

Marketing materials

As an addition to individual meetings, Fibrain prepared marketing materials, directed for a dedicated group of professionals. Properly prepared catalogue, editions, technical brochures as well as guides for installers and designers are in use. Data sheets include all necessary technical information needed for project implementation.

Sales network

Convenient locations of sales branches together with warehouse area next to each branch, as well as broad distributors network ensures permanent access to products. Another advantage is possibility of transport direct to the location or a building site. Thanks to maintained store level, complementation of orders is immediate.

Category 5e cabling

006

Express 5e

01

FIBRAIN DATA cabling Express series fully conforms to requirement of category 5e (class D) according to the norm ISO/IEC 11801 2nd edition: 2002.

Moreover all components of transmission channel conforms to ROHS Directive 2002/95/WE.

Category 5e (class D) in the beginning was corrected by norm TIA/EIA-568-B provides capacity of copper cabling system up to frequency off 100 MHz. Thanks to restrictive requirements regarding corsstalk provides implementation of Gigabit Ethernet (1000Mb/s) transmission.

FIBRAIN DATA system components, channel and permanent link were positively verified regarding conformity to cabling norms by Institute of Communication.

Application:

- 10BASE-T (IEEE 802.3)
- 4/16 Mbps Token Ring (IEEE 802.5)
- 100BASE-VG-AnyLAN
- 100 Mbps TP-PMD (ANSI X3T9.5)
- 100BASE-T (IEEE 802.3)
- 55/155 Mbps ATM
- 1000BASE-T (Gigabit Ethernet)

	20 - 100 MHz	25-7 log(f/20)
Propagation delay (max) (ns @ 10 MHz)	540	
Delay skew (max) (ns/100m)	45	
Diameter (mm)	5,2x11	
Weight (kg/km)	63	
Minimal bending radius (mm)	21	
Installation temperature (°C)	-20/+50	
Operation temperature (°C)	-10/+60	
Calorific value (MJ/m)	0,996	

Construction:

- Conductor - 24AWG (0,51mm)
- Insulation - polyolefin
- Pair number - 2x4 pairs twisted
- Jacket- LSZH green colour according to IEC60332-1

Applications:

- 10BASE-T (IEEE 802.3)
- 4/16 Mbps Token Ring (IEEE 802.5)
- 100BASE-VG-AnyLAN
- 100 Mbps TP-PMD (ANSI X3T9.5)
- 100BASE-T (IEEE 802.3)
- 55/155 Mbps ATM
- 1000BASE-T (Gigabit Ethernet)

Norms:

- LSZH: UNE-EN 50268, UNE-EN 50267-2-1 IEC 60332-1, UNE 50266-2-4
- ANSI/TIA/EIA 568-B.2 (Cat. 5e)
- ISO/IEC 11801
- IEC 61156-5
- EN 50173, EN 50288

Cable marking:

Every cable meter is marked as follow:

- Brand: FIBRAIN DATA
- Cable type: 2xU/UTP 8PR 24 AWG CAT. 5E 200 MHz
- Jacket type: LSZH
- Norms: IEC 60332-1 ISO/IEC 11801 EN 50173
- Production year: XXXX
- ID number: XXXXXX
- Length mark meters

XE125.107 FIBRAIN DATA Express 25xU/UTP Cat.5e+ 100 MHz reel of 1000 m, green LSZH sheath

01

Patchpanel 0,5U Express 5e XE100.205 UTP 24 ports

Express 5e

FIBRAIN DATA cabling Express series is fully complied to requirements of category 5e (class D) according to the norms:
 ANSI/TIA/EIA 568-B.2-1 (cat.5e), ISO/IEC 11801 2002, EN 50173:2002,
 EN 50173-1:2004, IEC 61156-5 edition 2002, IEC 60603-7-5.

Moreover all channel's components are complied to Directive ROHS 2002/95/WE

Components Express series are characterized by high quality of transmission and mechanical parameters and very often exceeding requirements of obeying norms. Such connections support majority of contemporary applications including Ethernet 1000 BASE - T.

Features:

- 0,5 U, 19"
- Depth 95 mm
- 8 pins IDC connectors
- Made of metal sheet powder painted of black colour.
- Easy installation of lead in cables (installation shelf).
- Readable ports and panels numbering

Electrical parameters:

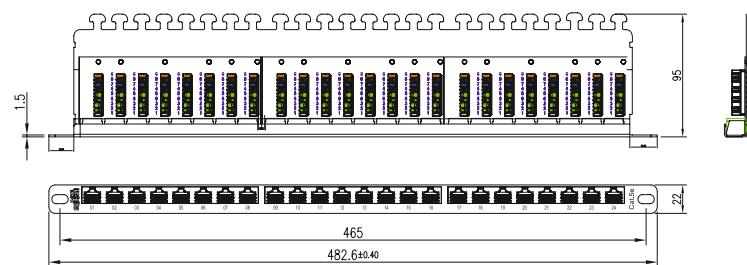

• Max current value:	1,5 A
• Insulation resistance:	500 MΩ min
• Pin resistance:	20 MΩ max
• DC resistance:	0,1 Ohms max

018

FIBRAIN DATA non-shielded patchpanels Express series are complied to requirements of category 5e (class D). Such connections support majority of contemporary applications. They are equipped with angle connectors IDC-LSA providing ease and fast installation.

Additionally are designed with L shaped shelf facilitate introduction changes, development and reconfiguration in easy way. Simple access to IDC connectors provides easy maintenance and change of connections. Additionally every port and panel has its own number. Standard 19".

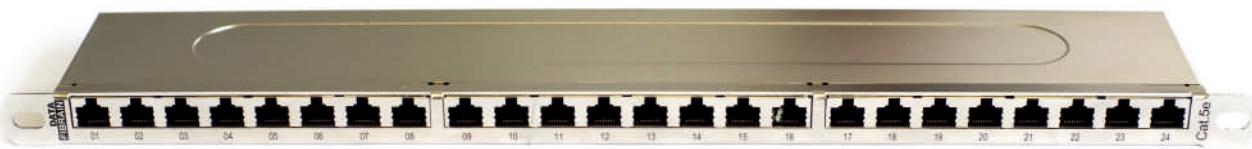

Mechanical parameters:

- Frame: metal sheet thickness 1,5 mm
- Socket non-shielded RJ45 cat.5e
- Casing - thermoplastic UL 94V-0 of black colour
- Pin material - phosphor-bronze
- Pin diameter 0,48 mm covered with 50 µm and 100 µm nickel layers
- Socket durability 750 connection cycles according to the EN 60603-7
- IDC connector angle joint connector IDC LSA
- Conductor diameter: 0,4-0,65 mm (AWG 26-22)
- IDC durability: >200 connection cycles
- Joint material phosphor-bronze
- Joint layer: 1,27 µm silver and 2,5 µm nickel
- Scheme T568A and T 568B

Express 5e

FIBRAIN DATA cabling Express series is fully complied to requirements of category 5e 100 MHz (class D) according to the norms:
 ANSI/TIA/EIA 568-B.2-1 (cat.5e), ISO/IEC 11801 2002, EN 50173:2002, EN 50173-1:2004, IEC 60603-7-4.

Moreover all channel's components are complied to Directive ROHS 2002/95/WE

Components Express series are characterized by high quality of transmission and mechanical parameters and very often exceeding requirements of valid norms. They fully support 125 MHz transmission.

Non-shielded sockets (keystones) FIBRAIN DATA Express series are fully complied to requirements of category 5e (class D) and provide 125 MHz transmission. One used tool-less way of cable termination. Special casing significantly influence on gained parameters. Limits up to minimum division of cable during termination and speed up time of division performance. Specially adjusted casing shape totally protects cable's conductors against tearing out. Double color indicating system provides conductors configuration within sequence 568A or 568B. Thanks to appropriate selection of materials and tap shape module socket is totally resistant against unfastening of connectors RJ-11 and RJ-12. RJ-45 port is equipped with individual anti-dust shutter. Keystone me be used with straight and angle adapters.

022

Features:

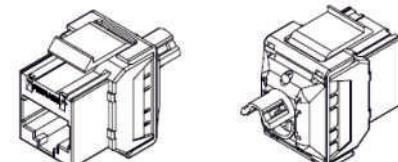

- Tool-less
- Casing decreasing cables conductors division
- Made of flame non-spreading materials UL94V-0
- Anti-dust shutter
- Sequence identification 568A and 568B

Electric parameters:

- | | |
|--------------------------|---------------------|
| • Max current: | 1,5 A |
| • Insulation resistance: | 500 MΩ min |
| • Pin resistance: | 20 MΩ max |
| • DC resistance: | 0,1 Ohm max |
| • Comply to norms: | IEC 60603-7 Class D |
| • Comply to norms: | TIA568-B Cat.5e |

Mechanical parameters:

- Socket: non-shielded RJ 45 cat.5e
- Casing: UL 94V-0
- Pin material phosphor-bronze
- Pin: diameter 0,46mm covered with 50 µm and 100 µm nickel layers
- Socket durability 750 connection cycles according to the EN 60603-7
- IDC connector toll-less IDC
- Conductor diameter: 0,4-0,65 mm (AWG 26-22)
- IDC durability 200 connection cycles
- Joint material phosphor-bronze
- Joint layer: 1,27 µm of silver and 2,5 µm of nickel
- Division Scheme Identification T568A and T568B

01

Quick 6

FIBRAIN DATA cabling QUICK series fully conforms to requirement of category 6 (class E) according to the standard ISO/IEC 11801 2nd edition: 2002. Moreover all components of transmission channel conform to ROHS Directive 2002/95/WE.

Category 6 (class E) in the beginning was corrected by norm TIA/EIA-568-B provides capacity of copper cabling system up to frequency up to 250 MHz. Nowadays it is the most often used type of cabling that allows for full implementation of application of 1000Base-T.

FIBRAIN DATA system components, channel and permanent link were positively verified regarding conformity to cabling norms by Institute of Communication.

Komponenty zostały także przebadane przez 3P Third Party Testing z wykorzystaniem metody „De-embedded” badania przestuchów NEXT oraz najnowszej metody „Re-embedded”.

Application:

- Half and full duplex transmission
- Analog and digital transmission of video signal
- 16 Mbps Token Ring
- 100 Mbps TP-PMOD
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1.2 Gbps ATM

XQ 100.103 drum 1000 m.

Category 6 cabling U/UTP LSZH coating

01

Cable 500 MHz LSZH sheath U/UTP Category 6

FIBRAIN DATA Structural Cabling Quick Series, fully satisfies the requirements of cat 6 (class E) in accordance with standard ISO/IEC 11801 2nd edition: 2002. Also all components of the transmission line complete ROHS 2002/95/WE Directive.

Electrical and constructional parameters:

Parameter:	
Resistance (max) Ohm/100m (328 ft) @ 20°C	8,90
Capacity (max) nF/100m (328ft) @ 1 kHz	5,60
Nominal velocity of propagation NVP (% speed of light)	68
Impedance (Ohm)	(min-max)
Value for:	
1,0 - 100 MHz	85-115
100 - 350 MHz	78-122
350 - 500 MHz	68-132
Coefficient of delay (max) (ns @ 10 MHz)	518
Delay skew (max) (ns/100 m)	35
Diameter (mm)	6,1
Weigh(kg/km)	42
Minimal bending radius (mm)	24,5
Temperature of installation (°C)	-20/+50
Temperature of operation (°C)	-10/+60
Calorific value (MJ/m)	0.446

Construction:

- Conductor - 23 AWG (0,574 mm)
- Insulation: polyolefine
- Number of wires: 4 pairs twisted together
- Blue jacket - LSZH material according to norm IEC 60332-1

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 16 Mbps Token Ring
- 100 Mbps TP-PMOD
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1.2 Gbps ATM

Norms:

- IEC 60332-1, PN-EN 50265-2-1
- LSZH: PN-EN 50268-1
- PN-EN 50267-2-1, PN-EN 50266-2-4
- ANSI/TIA/EIA 568-B.2-1 (Cat.6)
- ISO/IEC 11801 : 2002, EN 50173 : 2002

Cable marking:

Below information is printed on each meter of the cable:

- Supplier: FIBRAIN DATA
- Cable Type: U/UTP 4PR23AWG CAT.6 500 MHz

XQ 102.137 FIBRAIN DATA Quick 2x F/FTP Cat.6 450 MHz drum 1000 m jacket LSZH blue colour

01

Cable 450 MHz FR-LSZH sheath S/FTP Category 6

FIBRAIN DATA Structural Cabling Quick System, fully satisfies the requirements of cat. 6 (class E) in accordance with standard ISO/IEC 11801 2nd edition: 2002. Also all components of the transmission line complete ROHS 2002/95/WE Directive.

Electrical and constructional parameters:

Parameter:

Impedance 10 to 450 MHz (Ω)	100±5	
Nominal velocity of propagation NVP (% speed of light)	78	
Attenuation:		
Value for:	-30 - 100 MHz	>80 dB
	100 - 1000 MHz	80-20log(f/100)
Reflection loss (RL) dB (min)		
Value for:	1.0 - 10 MHz	20+5 log(f)
	10 - 20 MHz	25
	20 - 100 MHz	25-7 log(f/20)
Propagation Delay (max) (ns/100 m)	470	
Delay skew (max) (ns/100 m)	25	
Dielectric strength during 1 minute (V c.c.)	700	
Insulation strength (MΩ/km)	>5000	
Nominal/maximum operating voltage (V)	125/200	
Maximum operating current (A)	0,25	
DC resistance in C.C (Ohm/k)	164	

Construction:

- Conductor - 23 AWG (0,574 mm)
- Insulation: polyolefine
- Number of wires: 4 pairs twisted together
- Blue jacket FR-LSZH according to IEC 60322-1
- Shield: aluminum foil/ polyester around each pair
- Shield: shield-braid around all pairs
- Grounding: cooper, galvanized drainage wire ϕ 0,4 mm

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 16 Mbps Token Ring
- 100 Mbps TP-PMOD
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1.2 Gbps ATM

Norms:

- IEC 60322-1, UNE-EN 50265-2-1
- LSZH: UNE-EN 50268-1
- UNE-EN 50267-2-1, UNE-EN 50266-2-4
- ANSI/TIA/EIA 568-B.2-1 (Cat.6)
- ISO/IEC 11801 : 2002, EN 50173 : 2002

Cable marking:

Below information is printed on each meter of the cable:

- Supplier: FIBRAIN DATA
- Cable Type: S/FTP 4PR 23AWG CAT.6 450 MHz
- Jacket type: FR-LSZH
- Norms: IEC 61156-5 ISO/IEC 11801 EN 50173
- Year of production: XXXX
- ID number: XXXX
- Length marking in meters

Quick 6

FIBRAIN DATA Structural Cabling Quick Series, fully satisfies the requirements of cat. 6 250MHz (class E) in accordance with standards ANSI/TIA/EIA 568-B.2 (cat.6), ISO/IEC 11801: 2002, EN 50173: 2002, EN 50173-1: 2004, IEC 60603-7-5.

Also all components of the transmission line complete ROHS 2002/95/WE Directive.

Components of Quick series are characterized by high quality of transmission and mechanical parameters. They often exceed requirements of valid standards. Fully provide 250 MHz (Class E) transmission.

Characteristics:

- Height: 0,5U, 19"
- Depth: 95 mm
- 8 pins IDC connectors
- Made of powder printed sheet, black colour RAL 9005
- Easy cable assembling, cable shelf
- Clear port and panels numbering

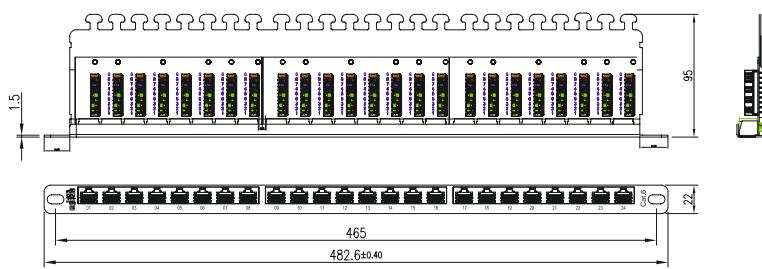

Electric parameters:

- | | |
|--------------------------|---------------------|
| • Insulation resistance: | 500 MOhms min |
| • Contacts resistance: | 10 MOhms max |
| • DC resistance: | 0,1 Ohms max |
| • According to norm: | IEC 60603-7 Class E |
| • According to norm: | TIA568-B Cat.6 |

FIBRAIN DATA Unshielded patchpanels Quick series fully comply with requirements of cat. 6 (Class E) and perform transmission of 250 MHz. They are equipped with angled connectors IDC-LSA which ensure ease and rapidity of assembly. Additionally has shelf in L-shape design which allows to make easy changes, extension, reconfiguration. Easy access to IDC connectors allows maintenance and changes in connections.

What is more, each port as well as patchpanel has their own numbering. Standard 19".

037

Mechanical parameters:

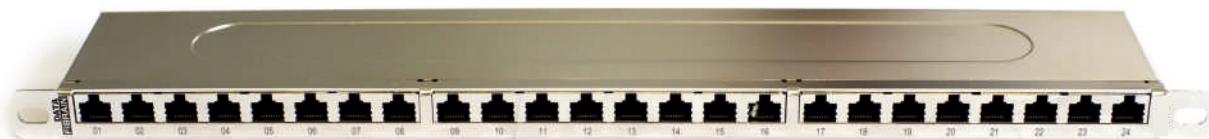

- Frame: steel plate 1,5 mm
- Jack: unshielded RJ45 cat.6
- Housing: thermoplastic material UL 94V-0, black colour
- Contacts material: bronze phosphoric
- Contacts: OD: 0,48 mm, covered with 50 µm of gold and 100 µm of nickel
- Contacts durability: >750 connection cycles according to norm: EN 60603-7
- IDC connectors: slotted angled connectors IDC LSA
- Wire diameter: 0,4- 0,65 mm (AWG 26-22)
- IDC durability: >200 connection cycles
- Coupler material: bronze phosphoric
- Coupler covering: 1,27 µm silver and 2,5 µm nickel
- Braiding identification: T568A and T568B

Quick 6

FIBRAIN DATA Structural Cabling Quick Series, fully satisfies the requirements of cat. 6 250MHz (class E) in accordance with standards ANSI/TIA/EIA 568-B.2 (cat.6), ISO/IEC 11801: 2002, EN 50173: 2002, EN 50173-1: 2004, IEC 60603-7-5.

Also all components of the transmission line complete ROHS 2002/95/WE Directive.

Components of Quick version are characterized by high quality of transmission and mechanical parameters. They often exceed requirements of valid standards. Fully provide 250 MHz (Class E) transmission.

**Characteristics:**

- Height: 0,5U, 19"
- Depth: 95 mm
- 9 pins IDC connectors
- Shielded cover connected with grounding spot
- Easy cable assembling, cable shelf
- Clear port and panels numbering

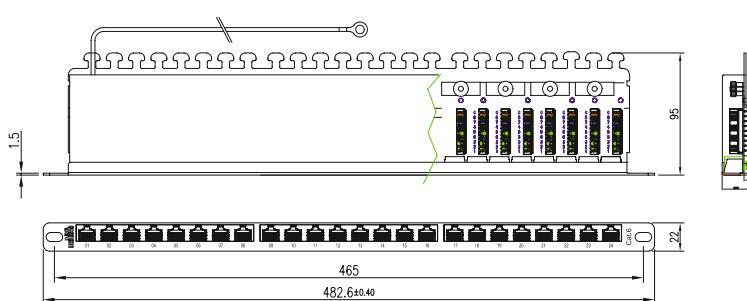

Electric parameters:

- | | |
|--------------------------|------------------------|
| • Insulation resistance: | 500 MOhms min |
| • Contacts resistance: | 10 MOhms max |
| • DC resistance: | 0.1 Ohms max |
| • According to norm: | IEC 60603-7 Class E |
| • According to norm: | TIA568-B Cat.6 |
| • Shield impedance: | 100 MHz 2000 MOhms max |

FIBRAIN DATA Shielded patchpanels Quick series fully comply with requirements of cat. 6 (Class E) and perform transmission of 250 MHz. Are equipped with specific 9 pins angled connectors IDC-LSA which ensure ease and rapidity of assembly and additionally connection with grounding. Such an assembly provides very high transmission performance as well as resistance to interference. Patchpanels are also design in L-shape having a shelf which allows to make easy changes, extension and reconfiguration. Easy access to IDC connectors allows maintenance and changes in connections.

Furthermore each port and panel, is numbered. Standard height 19".

**XQ100.255**

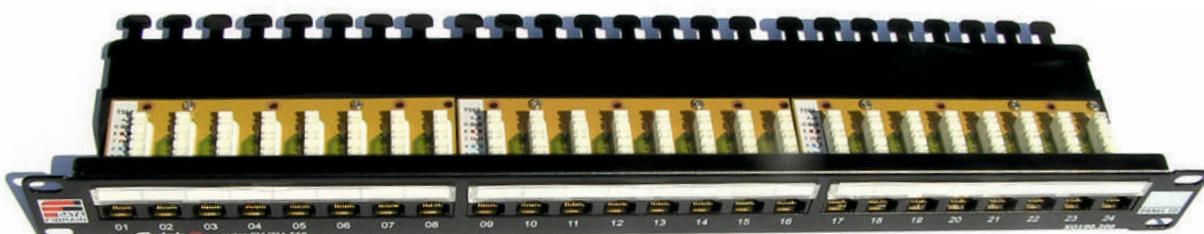

Example: XQ100.255 patchpanel Fibrain DATA Quick series 6 STP 24 ports

Mechanical parameters:

Quick 6

FIBRAIN DATA Structural Cabling Quick Series, fully satisfies the requirements of cat. 6 250 MHz (class E) in accordance with standards ANSI/TIA/EIA 568-B.2 (cat.6), ISO/IEC 11801: 2002, EN 50173: 2002, EN 50173-1: 2004, IEC 60603-7-5.

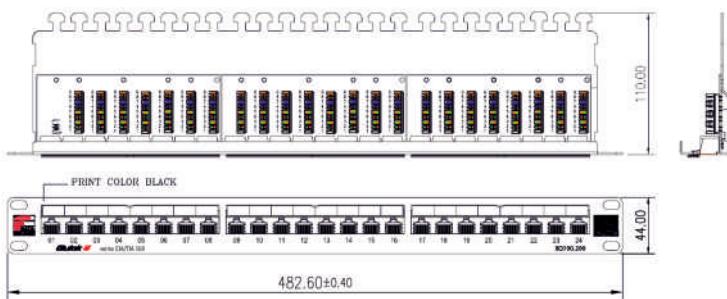

Also all components of the transmission line complete ROHS

2002/95/WE Directive.

Components of Quick series are characterized by high quality of transmission and mechanical parameters. They often exceed requirements of valid standards. Fully provide 250 MHz (Class E) transmission.

FIBRAIN DATA Unshielded patchpanels Quick series fully comply with requirements of cat. 6 (Class E) and perform transmission of 250 MHz. Are equipped with angled connectors IDC-LSA which ensure ease and rapidity of assembly. Additionally design in L shape having a shelf which allows to make easy changes, extension, reconfiguration. Easy access to connectors allows maintenance and changes in connections. Crossing field has a place for marking labels, which enable aesthetic and multiple connection description.

Furthermore, each port and patchpanel has their own numbering. Each set contains descriptive labels and cable bands. Standard height 19".

Characteristics:

- Height: 1U, 19"
- Depth: 110 mm
- 8 pins IDC connectors
- Made of powder printed sheet, black colour RAL 9005
- Easy cable assembling, cable shelf
- Description field with replaceable, pre-printed descriptive labels
- Clear port and panels numbering

Electric parameters:

- | | |
|--------------------------|---------------------|
| • Insulation resistance: | 500 MOhms min |
| • Contacts resistance: | 10 MOhms max |
| • DC resistance: | 0,1 Ohms max |
| • According to norm: | IEC 60603-7 Class E |
| • According to norm: | TIA568-B Cat.6 |

Mechanical parameters:

Quick 6

FIBRAIN DATA Structural Cabling Quick Series, fully satisfies the requirements of cat. 6 250MHz (class E) in accordance with standards ANSI/TIA/EIA 568-B.2 (cat.6), ISO/IEC 11801: 2002, EN 50173: 2002, EN 50173-1: 2004, IEC 60603-7-4.

Also all components of the transmission line complete ROHS 2002/95/WE Directive.

Components of Quick series are characterized by high quality of transmission and mechanical parameters. They often exceed requirements of valid standards. Fully provide 250 MHz (Class E) transmission.

FIBRAIN DATA Unshielded keystones Quick series, fully comply with requirements of cat. 6 (Class E) and perform transmission of 250 MHz. Tool-less cable termination method has been used. Specific design affects performance parameters. Minimizes wires unbraiding while termination and significantly accelerates mounting time. Special designed housing shape fully protects cable wires against unauthorised pulling out. Double colouring system enables wires configuration in sequences 568A and 568B. Through appropriate selection of material and contacts' shape keystone modules are characterized by fully resistance to connection RJ-11 and RJ-12 plugs. RJ-45 port is equipped with individual, automatic anti-dust cover. Keystones can be used in straight and angled adaptors.

Characteristics:

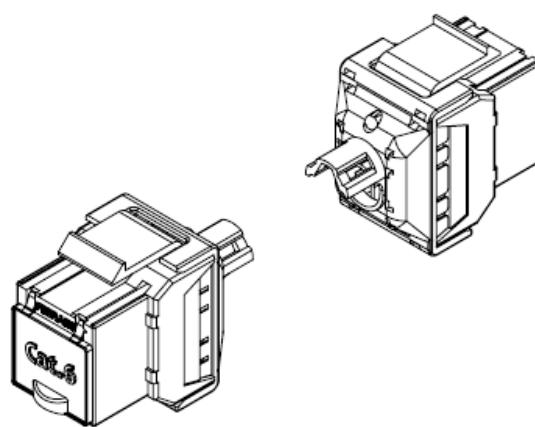

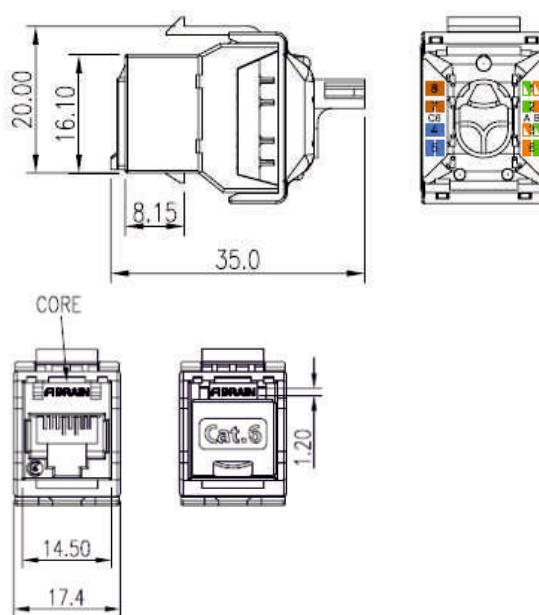

- Tool-less mounting
- Housing which minimizes wires un-braiding
- Non-flammable materials UL-94V-0
- Anti-dust cover
- Sequences identification: 568A and 568B

Electric parameters:

- | | |
|--------------------------|---------------------|
| • Maximum current value: | 1,5A |
| • Insulation resistance: | 500 MΩ min |
| • Contacts resistance: | 20 MΩ max |
| • DC resistance: | 0,1 Ohm max |
| • According to norm: | IEC 60603-7 Class E |
| • According to norm: | TIA568-B Cat.6 |

Mechanical parameters:

- Jack: shielded RJ45 cat.6
- Frame: UL 94V-0
- Contacts material: bronze phosphoric
- Contacts: OD: 0,46 mm, covered with 50 µm of gold and 100 µm of nickel
- Contacts durability: >750 connection cycles according to norm: EN 60603-7
- IDC connectors: tool-less IDC
- Wire diameter: 0,4- 0,65 mm (AWG 26-22)
- IDC durability: >200 connection cycles
- Coupler material: bronze phosphoric
- Coupler covering: 1,27 µm silver and 2,5 µm nickel
- Braiding identification: T568A and T568B

FIBRAIN DATA Structural Cabling Quick Series, fully satisfies the requirements of cat. 6 250 MHz (class E) in accordance with standard ANSI/TIA/EIA 568-B.2-1 (cat.6), ISO/IEC 11801: 2002, EN 50173: 2002, EN 50173-1: 2004, IEC 60603-7-4.

Also all components of the transmission line complete ROHS 2002/95/WE Directive.

Components of Quick series are characterized by high quality of transmission and mechanical parameters. They often exceed requirements of valid standards. Components fully provide 250 MHz (Class E) transmission.

Parametry Constructional parameters:

Parameter:

Connector type (a)

for:	moulded	Rj45, unshielded, 1:1 acc. TIA/EIA 568B
	crimped	Rj45, unshielded, Steward SS39100-007 1:1 acc. TIA EIA 568B

Cover type (b)

for:	moulded	PVC 75A, length printed on cover
	crimped	PVC 75A, length printed on cover

Cable type (c)

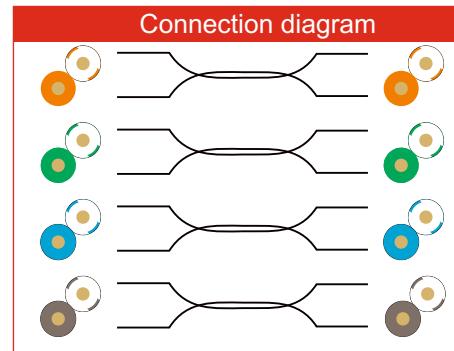

for:	moulded	U/UTP AWG 24 PVC
	crimped	U/UTP AWG 26/27 LSZH

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 Mbps TP-PMOD
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1.2 Gbps ATM

Norms:

- IEC 60332-1, PN-EN 50265-2-1
- LSZH: PN-EN 50268-1
- PN-EN 50267-2-1, PN-EN 50266-2-4
- ANSI/TIA/EIA 568-B.2-1 (Cat.6)
- ISO/IEC 11801 : 2002, EN 50173 : 2002

Category 6A cabling

Category review

01

FIBRAIN DATA Structural Cabling Rapid Series fully satisfies the requirements of cat. 6A (class EA) in accordance with standards ISO/IEC 11801 2nd Ed. Am. 1, ANSI/TIA/EIA 568-B-2.1 as well as EN 50173-1: 2002 Am.1. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

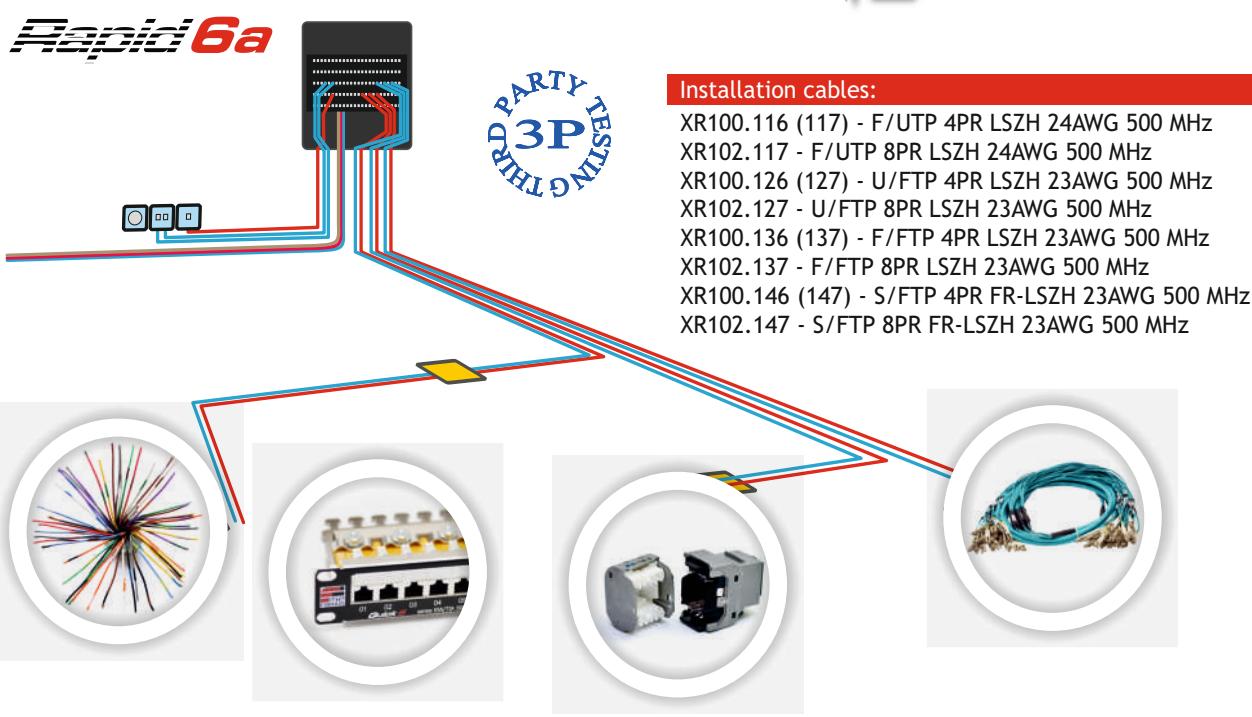

Recently introduced category provides a bandwidth of 500 MHz frequency. Full transmission track enable 10GBase-T implementation and also multimedia solution. This category is still under development (ANSI/TIA/EIA continues to develop guidelines relating with components). Systems are usually based on shielded solutions.

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 Mbps TP-PMOD
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1,2 Gbps ATM
- 10G BASE-T(10 Gigabit Ethernet)

Rapid 6a

Cable 500 MHz LSZH sheath F/UTP Category 6A

Structural Cabling FIBRAIN DATA Rapid Series, fully satisfies the requirements of cat. 6A (class EA) in accordance with standards ISO/IEC 11801 2nd Ed. Am. 1, ANSI/TIA/EIA 568-B-2.1 as well as EN 50173-1: 2002 Am.1. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

Electrical and constructional parameters:

Parameter:

Impedance 10 to 500 MHz (Ohm)	100±5
Nominal velocity of propagation NVP (% speed of light)	72
Attenuation:	
Value for:	-30 - 100 MHz
	>55 dB
	100 - 1000 MHz
	55-20log(f/100)
Delay skew (max) (ns/100 m)	<25
Dielectric strength during 1 minute (V c.c.)	1500
Insulation strength (MΩ/km)	>5000
Nominal/maximum operating voltage (V)	125/200
Maximum operating current (A)	0,25
DC resistance in C.C (Ohm/k)	164
Diameter (mm)	7,1
Weight (kg/km)	52
Flame resistance	NFC 32070 C2
Temperature while installation (°C)	-5/+50
Temperature while operation (°C)	-20/+60

Construction:

- Conductor – 24AWG (0,51 mm)
- Insulation: polyolefine
- Number of wires: 4 pairs twisted together
- Turquoise jacket LSZH according to IEC 60322-1
- Shield: aluminum foil/polyester around all pairs
- Grounding: cooper, galvanized drainage wire φ 0,4 mm

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 Mbps TP-PMOD
- 100 BASE-T (IEEE 802.3)

Construction:

- Conductor – 23 AWG (0,574 mm)
- Insulation: polyolefine
- Number of wires: 4 pairs twisted together
- Turquoise jacket LSZH according to IEC 60322-1
- Shield: aluminum foil/polyester around each pair
- Shield: aluminum foil/polyester around all pairs

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 Mbps TP-PMD
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1.2 Gbps ATM

Rapid 6a

Patchpanel 0,5U Rapid 6A XR 100.255 FTP/STP 24 ports patchpanels

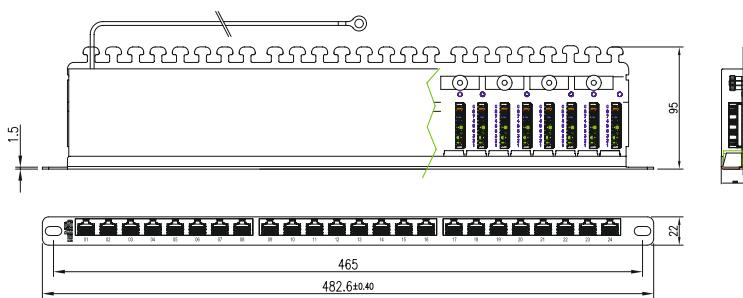

FIBRAIN DATA Structural Cabling Rapid Series, fully satisfies the requirements of cat. 6A (class EA) in accordance with standard ISO/IEC 11801 2nd Ed. Am. 1, ANSI/TIA/EIA 568-B-2.1 as well as EN 50173-1: 2002 Am.1. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

Components in Rapid series are characterized by high quality of transmission and mechanical parameters, often exceeding requirements of valid standards. Components fully provide 500 MHz transmission.

FIBRAIN DATA Shielded patchpanels Rapid series fully comply with requirements of cat. 6A (Class EA) and perform transmission of 500 MHz. Are equipped with specific 9 pins angled connectors IDC-LSA which ensure ease and rapidity of assembly and additionally connection with grounding. Such an assembly provides very high transmission performance as well as resistance to interference. Patchpanels are also design in L-shape having a shelf which allows to make easy changes, extension and reconfiguration. Easy access to IDC connectors allows maintenance and changes in connections.

Furthermore each port and panel, is numbered. Standard height 19".

XQ100.255

Example: XR100.255 patchpanel Fibrain DATA Rapid series 6A STP 24 ports

Characteristics:

- Height: 0,5U, 19"
- Depth: 95 mm
- 9 pins IDC connectors
- Shielded cover connected with grounding spot
- Easy cable assembling, cable shelf
- Clear port and panels numbering

Electric parameters:

- Insulation resistance: 500 M Ω min
- Contacts resistance: 10 M Ω max
- DC resistance: 0.1 Ohms max
- According to norm: IEC 60603-7 Class EA
- According to norm: TIA568-B Cat.6A
- Shield impedance: 100 MHz 2000 M Ω max

055

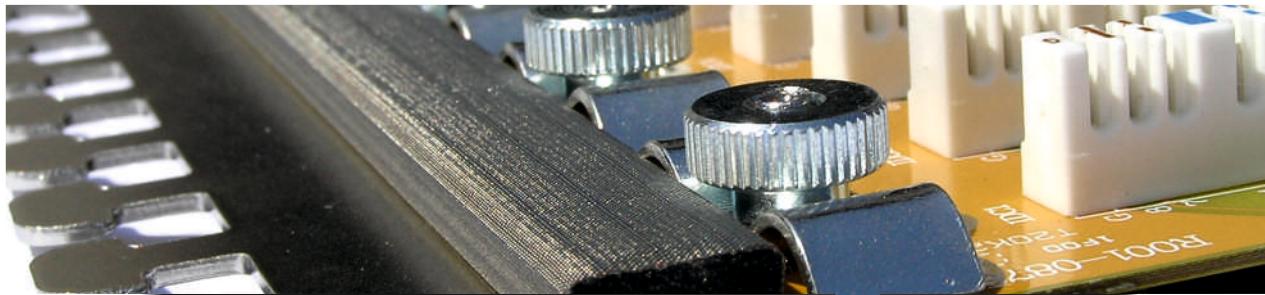

Mechanical parameters:

- Frame: steel plate 1,5 mm
- Screen: shielded cover made from galvanized steel 1,0 mm
- Jack: shielded RJ45 cat.6
- Housing: thermoplastic material UL 94V-0, black colour
- Contacts material: bronze phosphoric
- Contacts: OD: 0,48 mm, covered with 50 μ m of gold and 100 μ m of nickel
- Contacts durability: >750 connection cycles according to norm: EN 60603-7
- IDC connectors: slotted angled connectors IDC LSA
- Wire diameter: 0,4- 0,65 mm (AWG 26-22)
- IDC durability: >200 connection cycles
- Coupler material: bronze phosphoric
- Coupler covering: 1,27 μ m silver and 2,5 μ m nickel
- Braiding identification: T568A and T568B

- Braiding identification: T568A and T568B

Rapid 6a

Keystone XR 100.450

Category 6A FTP

FIBRAIN DATA Structural Cabling Rapid Series, fully satisfies the requirements of cat. 6A (class EA) in accordance with standard ISO/IEC 11801 2nd Ed. Am. 1, ANSI/TIA/EIA 568-B-2.1 as well as EN 50173-1: 2002 Am.1. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

Components in Rapid series are characterized by high quality of transmission and mechanical parameters, often exceeding requirements of valid standards. Components fully provide 500 MHz transmission.

FIBRAIN DATA Shielded keystones Express series, fully comply with requirements of cat. 6A (Class EA) and perform transmission of 500 MHz. Tool-less cable termination method has been used. Specific design affects performance parameters. Minimizes wires unbraiding while termination and significantly accelerates mounting time. Special designed housing shape, fully protects cable wires against unauthorised pulling out. Double colouring system enables wires configuration in sequences 568A and 568B. Through appropriate selection of material and contacts shape, keystone modules are characterized by fully resistance to connection RJ-11 and RJ-12 plugs. RJ-45 port is equipped with individual, automatic anti-dust cover. Keystones can be used in straight and angled adaptors.

Characteristics:

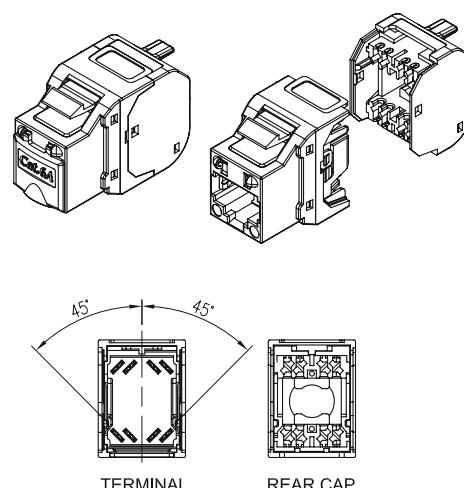

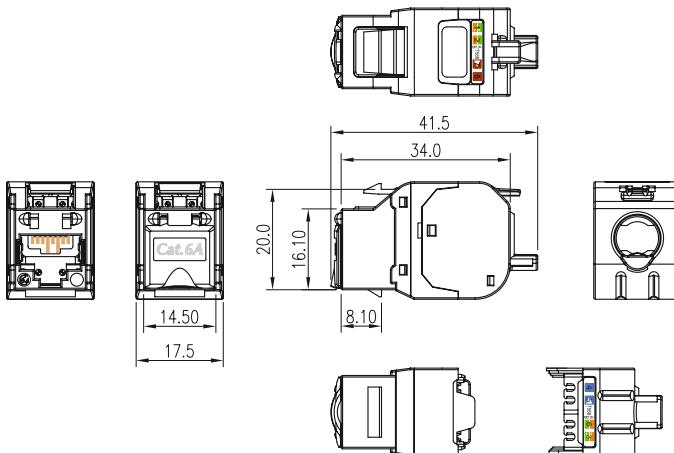

- Tool-less mounting
- Housing which minimizes wires un-braiding
- Non-flammable materials UL-94V-0
- Anti-dust cover
- Sequences identification: 568A and 568B

Electric Parameters:

- Maximum current value: 1,5A
- Insulation resistance: 500 M Ω min
- Contacts resistance: 20 M Ω maxDC resistance: 0,1 ohm max
- According to norm: ISO/IEC 11801 2nd Ed. Am. 1
- According to norm: ANSI/TIA/EIA 568-B-2.1

Mechanical Parameters:

- Jack: shielded RJ45 cat.6
- Frame: UL 94V-0
- Contacts material: bronze phosphoric
- Contacts: OD: 0,46 mm, covered with 50 μ m of gold and 100 μ m of nickel
- Contacts durability: >750 connection cycles
- According to norm: EN 60603-7
- IDC connectors: tool-less IDC
- Wire diameter: 0,4-0,65mm (AWG 26-22)
- IDC durability: >200 connection cycles
- Coupler material: bronze phosphoric
- Coupler covering: 1,27 μ m of silver and 2,5 μ m of nickel
- Braiding identification: T568A and T568B

Patchcord

Category 6A FTP

FIBRAIN DATA Structural Cabling Rapid Series, fully satisfies the requirements of cat. 6A (class EA) in accordance with standards ISO/IEC 11801 2nd Ed. Am. 1, ANSI/TIA/EIA 568-B-2.1 as well as EN 50173-1: 2002 Am.1.

Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

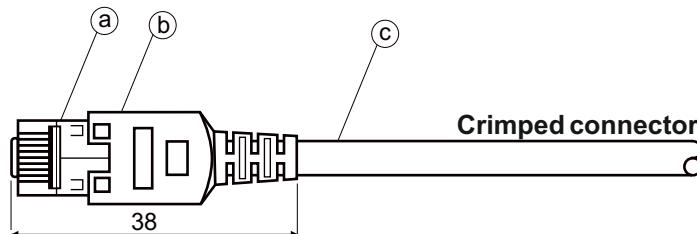

Components in Rapid series are characterized by high quality of transmission and mechanical parameters, often exceeding requirements of valid standards. Components fully provide 500 MHz transmission (Class EA).

Application:

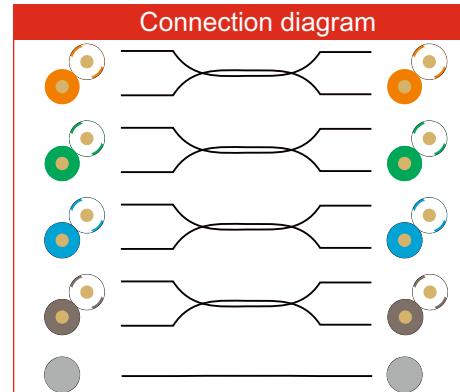

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 Mbps TP-PMOD
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1.2 Gbps ATM
- 10G BASE-T(10 Gigabit Ethernet)

Norms:

- IEC 60332-1, UNE-EN 50265-2-1
- LSZH: UNE-EN 50268-1
- UNE-EN 50267-2-1, UNE-EN 50266-2-4
- ANSI/TIA/EIA 568-B-2.1 (Cat. 6A)
- ISO/IEC 11801 : 2002, EN 50173 : 2002

ULTRA 7

ULTRA 7A

FUTURE 8

FIBRAIN DATA Structural Cabling Ultra Series fully satisfies the requirements of cat. 7 (class F) in accordance with standard ISO/IEC 11801 2nd Ed. as well as EN 50173-1:2002, while category 7A (class FA) in accordance with norm ISO/IEC 11801 2nd Ed. Am. 2 and EN 50173-1:2002 Am. 2. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

Structural Cabling Category 7 system uses transmission on 600 MHz level. That is why standard terminations RJ45 cannot be applied. All solutions of category 7 are based on shielded cable.

Category 7A has been implemented by ISO/IEC as class FA. Provides a bandwidth of 1000 MHz frequency. Authors' intention is to serve 40GbE protocol and 100GbE protocol in near future.

Category 8 will be implemented soon. Cable requirements are included in IEC 61156-7 norm for 1200 MHz frequency.

Application:

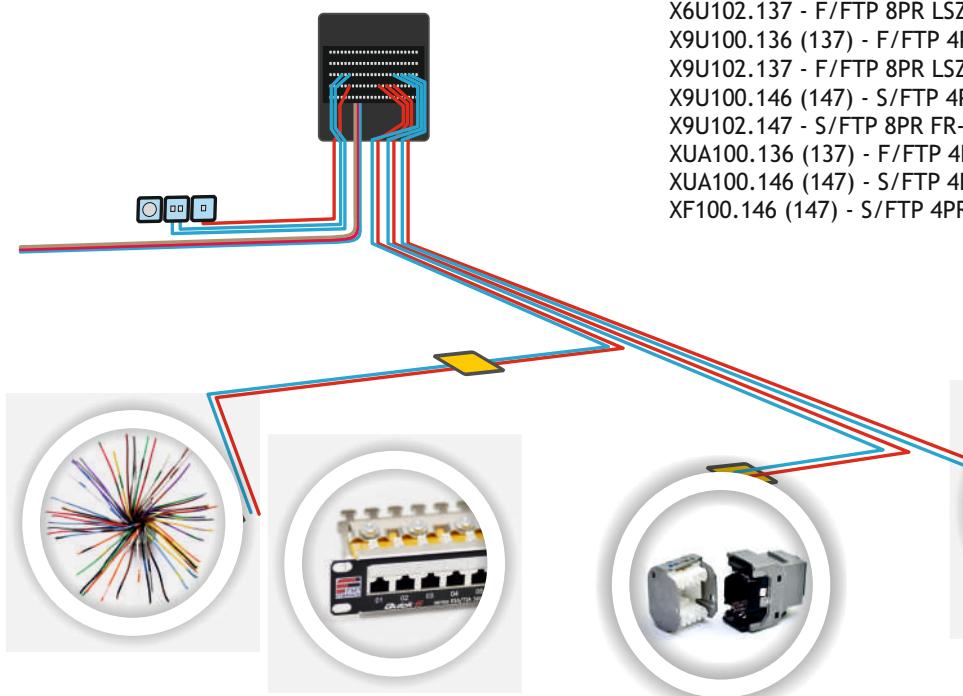

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1.2 Gbps ATM
- 10G BASE-T(10 Gigabit Ethernet)
- Broadband CATV

Cable 600 MHz LSZH sheath F/FTP Category 7

Structural Cabling FIBRAIN DATA Ultra Series, fully satisfies the requirements of ca.t 7 (class F) in accordance with standard ISO/IEC 11801 2nd Ed. as well as EN 50173-1:2002. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

Electrical and constructional parameters:

Parameter:

Impedance 10 to 600 MHz (Ohm)	100±5
Nominal velocity of propagation NVP (% speed of light)	74
Attenuation:	
Value for:	-30 - 100 MHz
	>80 dB
	100 - 1000 MHz
	80-20log(f/100)
Delay skew (max) (ns/100 m)	<40
Dielectric strength during 1 minute (V c.c.)	1000
Insulation strength (MΩ/km)	>5000
Nominal/maximum operating voltage (V)	125/200
Maximum operating current (A)	0,25
DC resistance in C.C (Ohm/k)	164
Diameter (mm)	7,5
Weight (kg/km)	60
Flame resistance	NFC 32070 C2
Temperature while installation (°C)	-10/+50
Temperature while operation (°C)	0/+50

Construction:

- Conductor – 23 AWG (0,574 mm)
- Insulation: polyolefine
- Number of wires: 4 pairs twisted together
- Orange jacket LSZH according to IEC 60322-1
- Shield: aluminum foil/polyester around each pair
- Shield: aluminum foil/polyester around all pairs
- Grounding: cooper, galvanized drainage wire φ0,4 mm

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM

X9U100.147 drum 1000 m.

Category 7, 7A, 8 cabling

S/FTP DUPLEX FR-LSZH coating

01

Cable 900 MHz DUPLEX FR-LSZH sheath S/FTP Category 7

Structural Cabling FIBRAIN DATA Ultra Series, fully satisfies the requirements of cat. 7 (class F) in accordance with standard ISO/IEC 11801 2nd Ed. as well as EN 50173-1:2002. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive. Characterized cables are with upgraded parameter up to 900 Mhz.

Electrical and constructional parameters:

Parameter:

Impedance 10 to 900 MHz (Ohm)	100±5
Nominal velocity of propagation NVP (% speed of light)	78
Attenuation:	
Value for:	-30 - 100 MHz
	>80 dB
	100 - 1000 MHz
	80-20log(f/100)
Delay skew (max) (ns/100 m)	25
Dielectric strength during 1 minute (V c.c.)	700
Insulation strength (MOhm/km)	>5000
Nominal/maximum operating voltage (V)	125/200
Maximum operating current (A)	0,25
DC resistance in C.C (Ohm/k)	164
Diameter (mm)	7,1x16
Weight (kg/km)	115
Flame resistance	NFC 32070 C2
Temperature while operation (°C)	-40/+65

Construction:

- Conductor - 23 AWG (0,574 mm)
- Insulation: polyolefine
- Number of wires: 2x4 pairs twisted together
- Orange jacket LSZH according to IEC 60322-1
- Shield: aluminum foil/polyester around each pair
- Shield: shield-braid around all pairs
- Grounding: cooper, galvanized drainage wire φ 0,4 mm

066

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 BASE-T (IEEE 802.3)
- 1000 BASE-T (Gigabit Ethernet)
- 155/622 Mbps ATM
- 1,2 Gbps ATM
- 10G BASE-T(10 Gigabit Ethernet)
- Broadband CATV

Norms:

- IEC 60322-1, UNE-EN 50265-2-1
- LSZH: UNE-EN 50268-1
- UNE-EN 50267-2-1, UNE-EN 50266-2-4

X9U102.147 FIBRAIN DATA Ultra 2xS/FTP Cat.7 900 MHz 1000 m drum FR-LSZH jacket orange

01
ULTRA 7A 1000MHz

Cable 1000 MHz LSZH sheath F/FTP Category 7A

Structural Cabling FIBRAIN DATA Ultra A Series, fully satisfies the requirements of cat. 7A (class FA) in accordance with standard ISO/IEC 11801 2nd Ed. Am.2 as well as EN 50173-1:2002 Am.2. Moreover all components of the transmission line complete ROHS 2002/95/WE Directive.

Electrical and constructional parameters:

Parameter:

Impedance 10 to 1000 MHz (Ohm)	100±5
Nominal velocity of propagation NVP (% speed of light)	75
Attenuation:	
Value for:	>30 - 100 MHz >80 dB
	100 - 1000 MHz 80-20log(f/100)
Delay skew (max) (ns/100 m)	<40
Dielectric strength during 1 minute (V c.c.)	1000
Insulation strength (MΩ/km)	>5000
Nominal/maximum operating voltage (V)	45/200
Maximum operating current (A)	0,25
DC resistance in C.C (Ohm/k)	164
Diameter (mm)	7,6
Weight (kg/km)	55
Flame resistance	NFC 32070 C2
Temperature while installation (°C)	-10/+50
Temperature while operation (°C)	0/+50

Construction:

- Conductor – 23 AWG (0,574 mm)
- Insulation: polyolefine
- Number of wires: 4 pairs twisted together
- Orange jacket LSZH according to IEC 60322-1
- Shield: aluminum foil/polyester around each pair
- Shield: aluminum foil/polyester around all pairs
- Grounding: cooper, galvanized drainage wire φ 0,4 mm

Application:

- Supports full and half duplex application
- Digital and analogue video transmission
- 100 BASE-T (IEEE 802.3)

Unloaded Patchpanel Modular Patchpanel 3U

Modular patchpanel 3U Telecom

Fibrain 3U modular patchpanel up to 144 splices enables termination up to 144 fibers of Fiber Optic cables in signal distribution points as well as in data centers. Well-considered construction allows easy, time economical installation and cable mounting. Full solution additionally offers patchcord or tube reserve shelves, patchcord managements as well as cable tube separators.

Characteristic:

- Application up to 144 fibers in 3U,
- Light and strong aluminum construction
- Modules pre-prepared for installation
- Easy and transparent management of tubes in FO cable

Components:

Patchpanel 3U Chassis

Ref no: PS-19-3-0

3U Chassis, 12 slots, equipped with rails for module conducting. Made of aluminum material which provides low weight as well as easy assembling in frame, cabinet also in street cabinet, in standard 19" height.

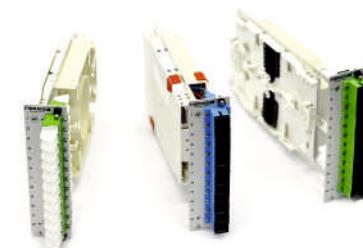

Application:

- Telecom data centers,
- FTTH networks,
- Undergrounds,
- Structural cabling system.

Technical data: Patchpanel 3U Chassis

Ref no:	PS-19-3-0
High:	3U
Dimensions (Width, High, Depth): 436x133,35x160	
Material:	- housing: aluminum - rails: plastic ABS

Components:

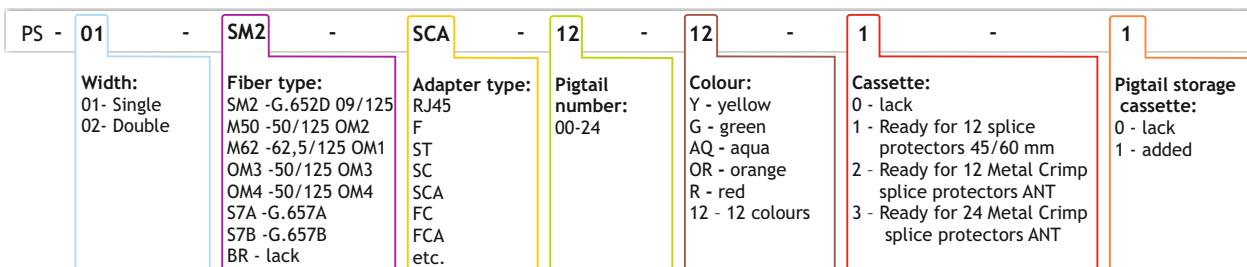

Single and double 3U slots/ modules

Ref no: PS-01-xxx-xx-xx-x-x, PS-02-xxx-xx-xx-x-x

Slots are equipped with splice cassettes ready for 12 and 24 fusion splice protectors 45/60 mm or ANT metal crimp splice protectors. Modules are pre-prepared for installation, equipped with adapters, pigtailed conducted into the splice cassettes. 12 coloured pigtailed enable easier identification and also shorten installation time.

Ordering instructions:

Main frame- 3U Chassis Patchpanel:	
-top & bottom opened	PS-19-3-0
-build up	PS-19-3-1
Single slot blank	PS-00
Patchcord organizer 1U	PS-ORG-1
Storage shelf 1U:	
-Patchcords	PS-19-1-PAT
-Tubes	PS-19-1-TUB

Voice

FIBRAIN DATA Structural Cabling Voice System, fully satisfies the requirements of cat. 3 (class C) in accordance with standards ISO/IEC 11801, EN 50173 and ANSI/TIA/EIA 568-B.2. This series is dedicated for structured cabling installations, for digital and analog telephone signals transmissions. VOICE products offers good transmission parameters need for voice applications, easy connectorization of cables and convenience of use.

Also all components of the transmission line complete ROHS 2002/95/WE Directive.

U/UTP cat 3

FIBRAIN DATA Structural Cabling Voice System, fully satisfies the requirements of cat. 3 (class C) in accordance with standards ISO/IEC 11801, EN 50173 and ANSI/TIA/EIA 568-B.2. This series is dedicated for structured cabling installations, for digital and analog telephone signals transmissions. VOICE products offers good transmission parameters need for voice applications, easy connectorization of cables and convenience of use.

Electrical and constructional parameters:

Parameter:

Maximum conductor resistance (d.c.) At 20°C (0,4 mm)	@ Ohm/km	93,8
Minimum dielectric strength (d.c.) Between conductors @ V		1000
Min. Insulation resistance MΩhm/km		10000
Impedance characteristics (Ohm)	(min-max)	
value for:	772 kHz	87-117
	1,0 - 16 MHz	85-115
Return loss (RL) dB (min)		
value for:	772 kHz	12
	1,0 - 16 MHz	12-log(f/10)
Construction		50x2x0,5
Diameter (mm)		13,8
Weight (kg/km)		293
Drum size		10

Construction:

- Conductor (wire) - 24 AWG (0,51 mm)
- Insulation: polyolefin
- Number of wires: 50 pairs twisted together
- Jacket type: - XV150.103 - grey jacket PVC
- Jacket type: - XV150.107 - green jacket LSZH

Cable marking:

01

Patchpanel Voice XV100.200 25 ports

FIBRAIN DATA Structural Cabling Voice System, fully satisfies the requirements of cat 3 (class C) in accordance with standards ISO/IEC 11801, EN 50173 and ANSI/TIA/EIA 568-B.2. This series is dedicated for structured cabling installations, for digital and analog telephone signals transmissions. VOICE products offers good transmission parameters need for voice applications, easy connectorization of cables and convenience of use.

Also all components of the transmission line complete ROHS 2002/95/WE Directive.

Additional asset is certainty of connection using standard RJ45-RJ45 cables. Patch panels Voice series fully meet demands cat. 3 and provide digital and analog telephone signals transmissions. Contain 4 pins (2 pairs) IDC-LSA and offers fast and easy installation. Main body designed in L-type shelf. Quick and simple access to IDC for better restoration and eventual link reconnection. Panel front was equipped in description fields with pre-printed identification.

XV100.200

Example: XV100.200 patch panel Fibrain Data Voice series 25 ports

Features:

- 1U high, 19" for 25 and 50 ports
- ISDN 4-poles (3/6, 4/5)
- L-type shelf construction
- Quick and simple access to IDC
- Description fields with pre-printed identification

Mechanical parameters:

- Body: steel plate 1,5 mm
- Jack: unshielded RJ45 cat.3
- Housing: high impact, flame retardant plastic UL94V-0
- Contacts: 0,35 mm phosphor bronze over gold and nickel
- Contacts durability: >750 connection cycles EN 60603-7
- IDC : IDC-LSA accept 22-26AWG solid wire
- IDC durability: >200 connection cycles
- IDC contacts: phosphor bronze over 60% Sn and 40% Pb
- Identification: T568A and T568B

LSA connections module 2/10

PC8001 - Beige-grey 2/10

PC8002 - White-grey 2/10

- for 10 pairs,
- for back-mount frame
- printing: jumper side 1...0,
- without color code.

Voice

LSA disconnection module 2/10

PC8003 - Grey 2/10

- for 10 pairs,
- for back-mount frame,
- printing: jumper side 1...0,
- without color code.

LSA connection module with color code 2/10

PC8004 - White-grey 2/10

- for 10 pairs,
- for back-mount frame
- printing: jumper side 1...0,
- with color code.

LSA earth module 2/38

PC8005 - Red 2/38

- for back-mount frame,
- for connecting drain wires to the earth contact,
- 38-pole,
- large jumper guides.

LSA module for profile rods 2/10

PC8012 - Connections - white-grey 2/10

PC8013 - Disconnections - grey 2/10

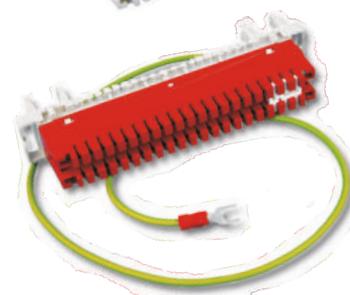

- for 10 pairs,
- for profile rods and back-mount frame,
- printing: jumper side 1...0,
- without color code.

LSA earth module for profile rods 2/34

PC8015 - red 2/34

- for profile rods and back-mount frame,
- for connecting drain wires to the earth contact,
- 34-pole,
- large jumper guides.

Black	PC8061-B	PC8062-B

Changeover adapter

PC8181 - changeover adapter 2/1**PC8182 - changeover adapter 2/10****PC8183 - changeover adapter 2/10 with printing: 1...0**

- for interruption-free switching of 1/10 pairs in LSA connection and disconnection modules of series 2.

Disconnection adapter

PC8185 - disconnection adapter 2/1**PC8186 - disconnection adapter 2/10**

- disconnects in disconnection modules of series 2 one pair and taps the wires from one side.

Voice Cabling LSA accessories

01

LSA accessories

Disconnection plug 2/1

PC8191-X - disconnection plug 2/1

- for opening of one pair in LSA disconnection modules of series 2,
- in various colors.

Voice

Dummy plug 2/1

PC8195-X - dummy plug 2/1

PC8196-X - dummy plug 2/1 with extraction hook

- for marking one pair as well as prevent unwanted access to LSA connection modules and disconnection in case of disconnection modules of series 2,
- with extraction hook or with label area in various colors.

Disconnection plug 2/10

PC8192 - disconnection plug 2/10, grey

- for opening all pairs in LSA disconnection modules 2/10.

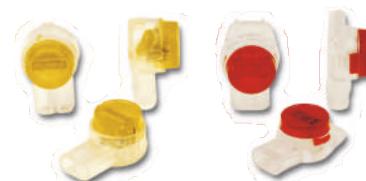

Wire connector

PC8021 - to connect 2 wires

PC8022 - to connect 2 or 3 wires

- diameter - 0,4-0,9mm,
- colors: yellow or red,
- waterproof.

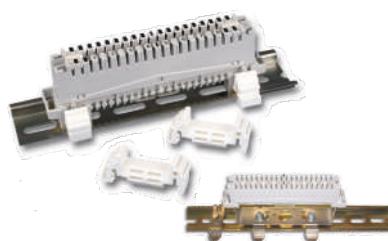

Adapter profile/DIN rail

PC8050 - adapter profile

PC8051 - DIN rail adapter

PC8052 - DIN rail adapter 2/10

- for mounting LSA modules for 12mm profile rod on DIN rails TS35 according to DIN EN 60715,
- version with M5 thread,
- version for profile rods.

Profile earth contact clip

PC8291 - profile earth contact clip

- provides the conductive connection between overvoltage protection components and the profile rods,
- per LSA modules are 2 earth contact clips required.

Overvoltage/overcurrent protection 2/1 G PTC

PC8292 - Overvoltage/overcurrent protection 2/1

- 1 pair coarse and fine protection with fail-safe,
- pluggable onto LSA disconnection and switching modules of series 2.

Earth bar 2/10

PC8295 - Earth bar 2/1

- provide earth connection between 1-pair protection plugs or earth plugs and the distribution frame.

**Voice**

LSA accessories

LSA GDT magazine 2/10

PC8150 - grounding magazine 3P

- LSA GDT magazine 2/10,
- overvoltage protection magazine for connection and disconnection modules 2/10.

Overvoltage arrester 8x10, 3-pole

PC8151 - Overvoltage arrester 8x10

- with pins and upper fail-safe.

Magazine cover 2/10

PC8152 - Magazine cover 2/10

- for overvoltage protection magazines 2/10 of type H.

LSA disconnection module 2/8x abs

PC8081 - LSA disconnection module 2/8

- without color code,
- for profile rods,
- for connecting and jumpering shielded pairs.

Cable support

PC8082 - Cable support 2/8 abs

- for one cable with 8 pairs,
- max. cable diameter: 12mm.

Wire guide 2/8 abs

PC8083 - Wire guide 2/8 abs, right

- for insertion of 4x2 jumper wires,
- snaps in LSA disconnection module 2/8 ab.

Hinged label holder 2/8 abs

Pc8084 - Hinged label holder 2/8

- with blank paper labels and transparent covers.

Profile rod bracket U

PC8111 - Profile rod bracket U - depth: 58 mm

PC8112 - Profile rod bracket U - depth: 86 mm

- for 12 mm rods,
- for assembling of profile rods bays for LSA modules 2/10.

Profile LSA rod

PC8113.xxxx - Profile rod

- stainless steel,
- diameter: 12 mm.

Profile spacer

PC8115 - Profile spacer 2,5 mm for pitch of 25 mm

PC8116 - Profile spacer 5,0 mm for pitch of 27,5mm

- for even spacing of LSA modules for profile rods.

Structural Cabling System Fibrain Data
Additional Equipment

Cabinets, Racks and Accessories

Additional Equipment standard 45x45

01

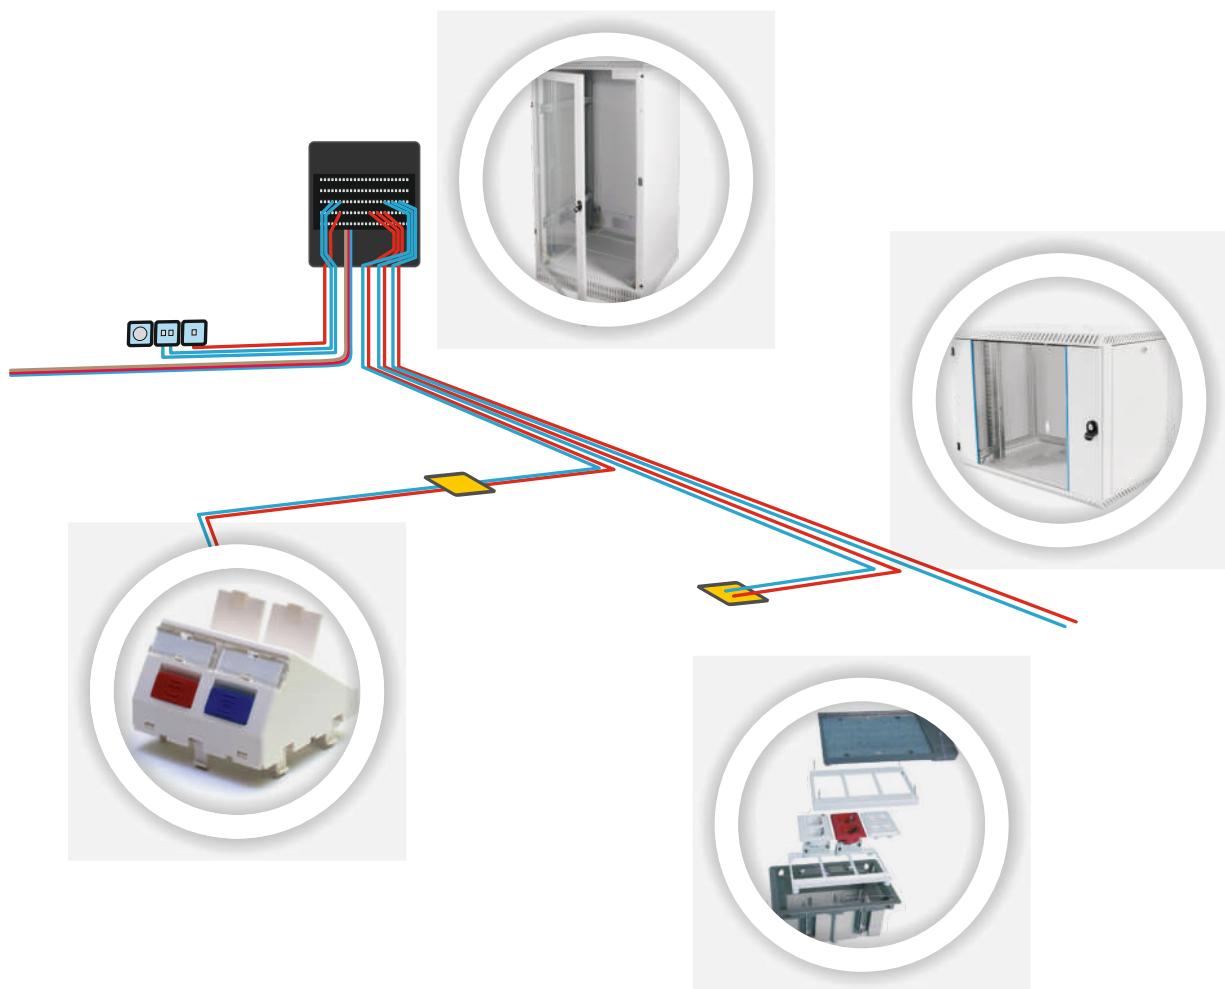

Additional equipment

Structural Cabling System Fibrain Data, is also a full assortment of products, that are used on distribution and logical point. The featured cabinets are used for holding active and passive network equipment in 10", 19" and 21" standard indoor applications. The simple construction and very high standard of product finish make the product highly functional. The wide range of cabinets and accessories allow custom configuration. The indoor cabinets offered are IP20 and can be upgraded to IP 41 according to PN/E 08106/ EN 60529

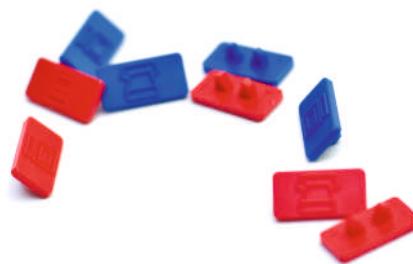

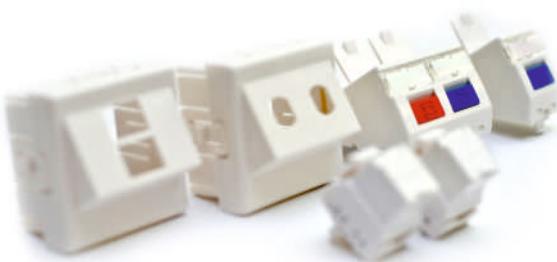

EBOX - the electro installation product, complete solution of flush box and surface box system. Is enable to use the same design of electrical sockets, telephone outlets, computer network outlets and also fiber optical outlets.

Cabinets, Racks and Accessories

Additional Equipment standard 45x45

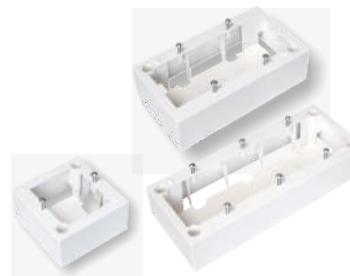

Boxes

Plastic boxes in 45x45 mm standard

Type	Height (mm)	Width (mm)	Depth (mm)	Index
2 modules	81	81	40	PC5002
4 modules	81	148	40	PC5004
6 modules	81	203	40	PC5006

- enable to use electrical and data transfer outlets in the same design,
- allow to use 2x 230 V sockets or 6 data transfer sockets,
- surface mounted,
- delivered with 2x metal screw,
- has special holes in back side for cables.

Flush mounted boxes in 45x45 mm standard

Type	Height (mm)	Width (mm)	Depth (mm)	Index
2 modules	65	68	40	PC5012
4 modules	65	124	40	PC5014
6 modules	65	184	40	PC5016

- enable to use electrical and data transfer outlets in the same design,
- allow to use 3x240 V sockets or 6x data transfer sockets,
- surface mounted,
- delivered with 2x metal screw,
- has special holes in back side for cables.

Frames and supports to boxes in 45x45 mm standard

PC5102 - frame with support - 2 modules 45x45mm

PC5104 - frame with support - 4 modules 90x45mm

PC5106 - frame with support - 6 modules 135x45mm

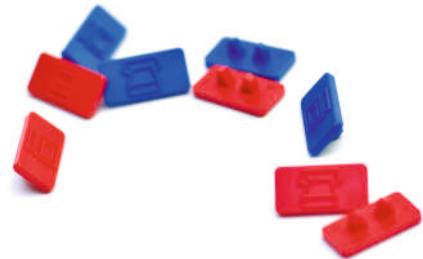

- enable to use electrical and data transfer outlets in the same design,
- allow to use 3x240 V sockets or 6x data transfer sockets,
- flush mounted or surface mounted,
- fast assembly modules - "on click".

Cabinets, Racks and Accessories

PC5065 - Ebox electrical sockets 2x230 V DATA red 2 modules
PC5066 - Ebox electrical sockets 2x230 V white 2 modules
PC5067 - Ebox 2x2 modules 45x45 mm frame for floor boxes

- enable to use others adapters on 45x45 or 50x50 standards,
- allow to create complete subscriber point.

Additional Equipment standard 45x45

Adapters in 45x45mm standard

01

Adapters to keystone jacks modules - flat

PC5201 - Ebox adapter 22,5x45mm for RJ45 Keystone Jack Modules
PC5202.1 - Ebox adapter 45x45mm for RJ45 Keystone Jack Modules
PC5202.2 - Ebox adapter 45x45mm for 2xRJ45 Keystone Jack Modules

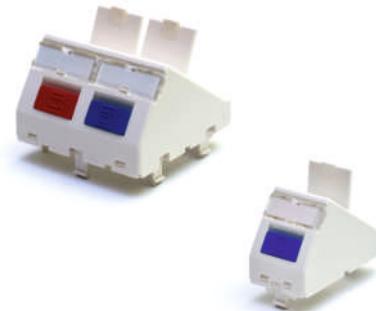

- enable to use electrical and data transfer outlets in the same design,
- mounted on frame with support,
- dust flaps,
- large description field,
- assembly "on click".

Adapters to keystone jacks modules - angular

PC5203 - Ebox adapter 22,5x45 mm for RJ45 Keystone Jack Modules
PC5204.1 - Ebox adapter 45x45 mm for RJ45 Keystone Jack Modules
PC5204.2 - Ebox adapter 45x45 mm for 2xRJ45 Keystone Jack Modules

- enable to use electrical and data transfer outlets in the same design,
- mounted on frame with support,
- dust flaps,
- large description field, with identification icon,
- assembly "on click".

Adapters to other modules - flat

PC5205 - Ebox adapter 22,5x45 mm for 1xSC duplex
PC5206 - Ebox adapter 45x45 mm for 2xST simplex
PC5207 - Ebox adapter 45x45 mm for 2xSC simplex, LC duplex, E2000/APC

- enable to use electrical and data transfer outlets (fiber connector) in the same design.

Blind adapter 45x45 mm standard

PC5221 - Ebox blind adapter 22,5x45 mm
PC5222 - Ebox blind adapter 45x45 mm

- enable to blind not used fields,
- mounted on frame with support,
- assembly "on click".

Electrical sockets in 45x45 mm standard

Type	2P+Z	2x(2P+Z)	3x(2P+Z)
Electrical socket with blockade	PC5231	PC5233	PC5235
Electrical socket without blockade	PC5230	PC5232	PC5234

- enable to use electrical and data transfer point in the same design,
- assembly "on click",
- 240V 50Hz / 16A, two holes with earthing pin.

PC5220 - EBOX key blocking

089

Osprzęt elektroinstalacyjny

Osprzęt dodatkowy w standardzie 50x50mm

01

Osprzęt dodatkowy

Puszki natynkowe

Typ	Wys. (mm)	Szer. (mm)	Gł. (mm) - 27	Gł. (mm) - 32	Gł. (mm) 37
2 modułowe	86	86	XB-50BBA-01	XB-50BBB-02	XB-50BBC-02
4 modułowe	86	146	XB-50BBA-02	XB-50BBB-04	XB-50BBC-04

- umożliwiają budowę gniazd logicznych i elektrycznych,
- montaż od jednego do czterech gniazd logicznych lub od jednego do dwóch gniazd elektrycznych,
- przeznaczone do montażu w połączeniu z ramkami wyposażonymi w suporty,
- dostarczane wraz wkrętami do przymocowania ramki i suportu,
- posiadają dodatkowe wycięcia umożliwiające wprowadzenie kabla.

Ramki montażowe z supportami

XB-50FPB-0002 - ramka z supportem - 2 modułowa 50x50 mm - wykończenie kątowe
XB-50FPB-0004 - ramka z supportem - 4 modułowa 90x50 mm - wykończenie kątowe
XB-50FPF-0002 - ramka z supportem - 2 modułowa 50x50 mm - wykończenie płaskie
XB-50FPF-0004 - ramka z supportem - 4 modułowa 90x50 mm - wykończenie płaskie

- umożliwiają budowę gniazd logicznych i elektrycznych,
- montaż od jednego do czterech gniazd logicznych, lub od jednego do dwóch gniazd elektrycznych,
- służą jako elementy mocująco-maskujące.

090

Ramki montażowe z adapterem keystone

XB-50FPF-0102 - ramka z supportem - 2 modułowa 50x50 mm - pod 1 moduł keystone
XB-50FPF-0202 - ramka z supportem - 2 modułowa 50x50 mm - pod 2 moduły keystone

- umożliwiają budowę gniazd logicznych,
- wyposażone w duże pole opisowe, oraz ikony identyfikacyjne,
- konstrukcja adaptera pozwala na montaż modułów Keystone RJ45 większości producentów dostępnych na rynku.

Adaptery pod moduły keystone

XB-50KA45I-01 - adapter 25x50 mm pod moduł keystone - kątowy
XB-50ST45I-01 - adapter 25x50 mm pod złącze ST SX - kątowy
XB-50SC45I-01 - adapter 25x50 mm pod złącze SC SX - kątowy
XB-50KA00L-01 - adapter 25x50 mm pod moduł keystone - płaski
XB-50BL000-01 - zaślepka do gniazd 25x50 mm

- umożliwiają budowę gniazd logicznych,
- przeznaczone do montażu w połączeniu z ramkami wyposażonymi w suporty,
- montaż przy pomocy zatrzasków.

Osprzęt elektroinstalacyjny Osprzęt dodatkowy - pozostałe

01

Osprzęt dodatkowy

Moduły natynkowe - wersja BOX

XB-00BXIL-01 - Moduł natynkowy - 1x keystone - wersja BOX

- umożliwia budowę gniazd logicznych w dowolnym miejscu
- wyposażony w:
 - otwory montażowe „keystone”,
 - duże pole opisowe, ikony identyfikacyjne,
 - przesłonę przeciwkurzową,
- przystosowany pod montaż modułów krosowniczych Fibrain DATA w wersji UTP i FTP/STP.

XB-00BXIL-02 - Moduł natynkowy - 2x keystone - wersja BOX

- umożliwia budowę gniazd logicznych w dowolnym miejscu
- wyposażony w:
 - otwory montażowe „keystone”,
 - duże pole opisowe, ikony identyfikacyjne,
 - przesłonę przeciwkurzową,
- przystosowany pod montaż modułów krosowniczych Fibrain DATA w wersji UTP i FTP/STP.

Ramki montażowe z adapterem keystone

- Legrand Valena™

PC5302.2 - Adapter pod 2 moduły keystone - płaski

- umożliwiają budowę gniazd logicznych,
- wyposażony w 2 otwory montażowe „keystone” oraz pole opisowe,
- występuje możliwość zaślepienia otworów montażowych,
- umożliwia montaż modułów krosowniczych FibrainDATA w wersji UTP i FTP/STP w osprzęcie elektroinstalacyjnym Legrand Valena™.

Cabinets, Racks and Accessories

Floor Standing Cabinets SRS 19"

01

Floor Standing Cabinets SRS - Standard

Features:

- sheet steel housing with welded frame, completely pre-assembled, self ventilated,
- surface finish: powder painted in RAL 7035 - light grey (other colors on request),
- protection IP20 in accordance with PN 92/E-08106/EN 60529/IEC 529. (does not apply to brush cable entries),
- indoor use,
- cabinets can be arranged in line using line-up bolts after removing side walls (Part No. ZLS),
- cabinet frame fully welded - 1,5 mm thick sheet steel on 4 x leveling feet M10,
- front door: window made of safety glass (optionally: full steel, full glass, punched perforated plate), opening angle 180 degrees. Left or right door opening options,
- cabinet rear panel - 1 mm. thick sheet steel, removable with two single point locks (Optionally: full steel or perforated, left or right side mounted door),
- cabinet side panels - 1 mm thick sheet steel, removable with two single point locks,
- two pairs of the profile rails (AL-Zn coated) each arranged at the front and rear on the inside. Each profile with unit labeling,
- possibility to increase maximum weight of equipment mounted in the cabinet SRS by using cabinet max load strengthen kit,
- cables let in entry optionally either from roof or base, either, through top or bottom of the rear side of cabinet, pre-punched opening. (Dimensions: 450 x 90 mm),
- in the roof and base of cabinet 2 x 4U blind plates (pre - punched opening) for fan units (possible configurations 1 or 2 x 2 fan units, 1 x 4 fan units 1 x 6 fan units),
- wide range of supplementary accessories: plinths, shelves, fan units, light units, power distribution units, blanking covers, cable management, accessories etc,
- optional 19" swing frame 90° opening.

Accessories supplied:

- 1 x brush terminal,
- 1 x set of captive nuts (16 pcs.),
- 2 x keys for sides and rear panels,
- 2 x keys for front door,
- 4 x leveling feet M10,
- 1,5 m of special cable entry cover for cables protection (after re-moving cable entry).

Cabinets, Racks and Accessories

Floor Standing Cabinets SRS 19"

01

Floor Standing Cabinets SRS - ECO

Features:

- sheet steel housing with welded frame, completely pre-assembled, self ventilated,
- surface finish: powder painted in RAL 7035 - light grey (other colors on request),
- protection IP20 in accordance with PN 92/E-08106 / EN 60529 / IEC 529. (does not apply to brush cable entries),

- indoor use,
- cabinets can be arranged in line using line-up bolts (Part No. ZLS) after removing side walls,
- cabinet frame fully welded - 1,5 mm. thick sheet steel on 4 x leveling feet M10,
- front door made of full safety transparent glass (thickness - 5 mm), opening angle 180 degrees, with two single point locks. Left or right opening options,
- cabinet rear panel - 1 mm thick sheet steel, removable with two single point locks (Optionally: full steel or perforated, left or right side mounted door),
- cabinet side panels - 1 mm. thick sheet steel, removable with two single point locks,
- two pairs of rails (AL-Zn coated) each arranged at the front and rear on the inside,
- new profile fixing system efficiently increases maximum load capacity of the cabinets and facilitates cable management,
- mounting rails with 25 mm hole spacing arranged horizontally at the top and the bottom of the cabinet, for fixing and depth adjustment of the mounting rails,
- minimum distance from the front door and front profile rails - 95 mm,
- each profile with unit labeling,
- internal cabinet sections fully earthed (grounding cords length: 30 cm 6 mm²) to the cabinet bottom,
- cables let in entry optionally either from roof or base, either through top or bottom of the rear side of cabinet, pre-punched opening. (Dimensions: 450 x 90 mm).

Accessories supplied:

- 1 x brush terminal,
- 1 x set of captive nuts (16 pcs.),
- 2 x keys for sides and rear panels,
- 2 x keys for front door,
- 4 x leveling feet M10,
- 1,5m of cable entry cover for cables protection (after removing cable entry).

Floor Standing Server Cabinets - SSRS 19"

01

Floor Standing Server Cabinets SSRS

Features:

- sheet steel housing with welded frame, completely pre-assembled,
- possibility of controlling ventilating air flow by application of proper type of fans, door, side and rear panels,
- protection IP20 in accordance with PN 92/E-08106 / EN 60 529 / IEC 529. (does not apply to brush cable entries),
- cabinets can be arranged in array using line-up bolts (Article No.ZLS-B),
- cabinet frame fully welded - 1,5 mm thick sheet steel on 4 x leveling feet M10,
- front door: with window made of safety glass (optionally: full steel, full glass, punched perforated plate), opening angle 180 degrees, with three point turning handle with latch, lockable. Left or right opening options,
- cabinet rear panel - 1 mm thick sheet steel, removable with two single point locks
- cabinet side panels - 1 mm thick sheet steel, removable with two single point locks.
- two pairs of mounting rails (AL-Zn coated) each arranged at the front and rear on the inside. Each profile with unit labeling, new profile fixing system efficiently increase maximum load capacity of the cabinets and facilitates cables management.
- profile rails with 25 mm. hole spacing arranged horizontally at the top and the bottom of the cabinet, for fixing and depth adjustment of the profile rails.
- available with front swing frame 19" mounting profiles.
- cables let in entry optionally either from roof or base, either through top or bottom of the rear side of cabinet, pre-punched opening.
- in the roof and base of cabinet 2 x 4U blind plates (pre-punched opening) for fan units (possible configurations 1 or 2 x 2 fan units, 1 x 4 fan units, 1 x 6 fan units).
- possibility to increase maximum weight of equipment mounted in the cabinet by using cabinet max load strengthening kit.
- wide range of supplementary accessories : plinths, shelves, fan units, light units, power distribution units, blanking covers,

Floor Standing Cabinets SSJ 19"

01

Floor Standing Cabinets SSJ

Features:

- sheet steel housing , completely pre-assembled, self ventilated,
- surface finish: powder painted in RAL 7035 - light grey (other colors on request),
- protection IP20 in accordance with PN 92/E-08106/EN 60529/IEC 529. (does not apply to brush cable entries),
- integrated plinth (100 mm height) with one cable entry on the back side (250 x 70 mm),
- in the roof and base of cabinet 2 x 4 U blind plates (pre-punched opening) for fan units (possible configurations 1 or 2 x 2 fan units, 1 x 4 fan units, 1 x 6 fan units),
- five cables let in entry optionally either from roof or base, either through top or bottom of the rear side of cabinet and one in the plinth, pre-punched opening,
- front door: with window made of safety glass (optionally: full steel), opening angle 180 degrees, with single point lock. Door stop possible on the right and left side,
- cabinet rear panel - 1,5 mm thick sheet steel, removable, fixed by six screws from outside,
- cabinet side panels - 1,5 mm thick sheet steel, not removable,
- one set of mounting rails (AlZn coated) each arranged at the front on the inside,
- new profiles fixing system efficiently increases maximum load capacity of the cabinets and facilitate of cables management. Profile rails with 25 mm hole spacing arranged horizontally of the top and the bottom of the cabinet, for fixing and depth adjustment of the profile rails,

- maximum spacing between front and rear profile rails:
cabinet depth 600 mm - max 472 mm,
cabinet depth 800 mm - max 672 mm,
- internal cabinet sections fully earthed (grounding cords length; 30cm, 6mm²) to the cabinet bottom,
- wide range of supplementary accessories: plinths, shelves, fan units, light units, power distribution units, blanking covers, cable management accessories etc,
- delivery in secure transport carton and stretch packaging on disposable pallet.

19" Mouting Frames

19" Mounting Frames

Features:

- surface finish: powder painted in RAL 7035 - light grey and (frame profiles), and RAL 7021 - black (base),
- designed for accommodating 19" components,
- for indoor use,
- easy assembly,
- accessible from all sides,
- extremely sturdy torsion ally stiff frames,
- two versions: simplex (one pair of profiles), duplex (two pair of profiles),
- open frame material - sheet steel on 4 x leveling feet M10,
- ideal for exhibition purposes, presentation in the IT sector or in full air-conditioned rooms,
- two cables let in entry on the front and rear of the frame base (Dimensions: 250 x 70 mm),
- wide range of supplementary accessories: shelves, fan units, light units, power distribution units, blanking covers, cable management accessories etc,
- the frame profiles (front and rear) are depth adjustable to:
 - mounting dept I - 370 mm,
 - mounting dept II - 470 mm,
 - mounting dept III - 580 mm,
- delivery in two boxes, in secure transport carton.

Accessories supplied:

- brush terminal (1pcs.),
- screws M6 x 12 (simplex/duplex) (8/16pcs.),
- blanking plate (1pcs.),
- screws M2, 9 x 9,5 (4pcs.),
- screws M8 x 25 (simplex/duplex) (4/8pcs.).

- sheet steel housing with welded frame, completely pre-assembled, self ventilated,
- surface finish: powder painted in RAL 7035 - light grey (Application of other colors on request),
- protection IP20 in accordance with PN 92/E-08106 EN 60529 IEC 529. (doesn't apply to brush cable entries),
- for indoor use,
- pre-assembled for mounting of fans in base plate and top,
- cabinet delivered without back panel. Optionally rear blanking panel screw down by four screws from inside,
- front door: fully made of safety glass, opening angle 180 degrees, lockable with latch. Door stop possible on the right and left side,
- profile rails positioned on the inside front ,width 482,6 mm (19"), depth adjustable. Horizontal profile rails with 25 mm. hole spacing for fixing and depth adjustment of the 19" profile rails. distance from the front door and front profile rails - 31,5 mm,
- cabinet can be equipped with additional rear adjustable 19" mounting profiles,
- maximum spacing between front and rear profile rails: Cabinet depth 400mm - max 335 mm,
- wide range of supplementary accessories: shelves, fan units, light units, power distribution units, blanking covers, cable management accessories etc.

TOP version. Features:

- sheet steel housing with welded frame, completely pre-assembled, self ventilated,
- surface finish: powder painted in RAL 7035 - light grey (Application of other colors on request),
- protection IP20 in accordance with PN 92/E-08106 / EN 60 529 / IEC 529. (doesn't apply to brush cable entries),
- pre-assembled for mounting of fans in base plate and top (Ventilation Module 1 x Fan for wall mounting cabinets - 24011100),
- cables let in entry optionally either from roof or base, or through top or bottom of the rear side of cabinet, pre-punched opening,
- front door: with window made of safety glass (optionally: full steel), opening angle 180 degrees, lockable with latch. Door stop possible on the right and left side,
- removable and lockable side walls,
- front door and side walls earthed on the inside,
- profile rails positioned on the inside front , width 482,6 mm (19"), depth adjustable. Horizontal profile rails with 25 mm. hole spacing for fixing and depth adjustment of the 19" profile rails,
- minimum distance from the front door and front profile rails - 31,5 mm,
- cabinet can be equipped with additional rear adjustable 19" mounting profiles,
- maximum spacing between front and rear profile rails: cabinet depth 400 mm - max 335 mm, cabinet depth 500 mm - max 435 mm, cabinet depth 600 mm - max 535 mm,
- wide range of supplementary accessories: shelves, fan units, light units, power distribution units, blanking covers, cable management accessories etc,
- delivery in secure transport carton.

1U	5	0,32	Plastic	ORG-VP-1U-G	ORG-VM-2U-B

- material: steel sheet with metal or plastic holders,
- for orderly and clear cable routing in the 19" level.

Cable routing bracket

Eye size (mm)	Load capacity (kg)	Index
40x40	0,05	WK1-HM-44-C
40x80	0,06	WK1-HM-48-C
80x80	0,06	WK1-HM-88-C

- for orderly and clear cable routing,
- mounting on the 19" profile rails,
- material: galvanized steel.

Cable routing panels

Type	Width (mm)	Depth (mm)	Height (mm)	Weight (kg)	Index RAL 7035	Index RAL 7021
1U	482	45	43	0,63	RKP-VM-1U-G	RKP-VM-1U-B
2U	482	77,6	88	1,43	RKP-VM-2U-G	RKP-VM-2U-B

- made from sheet steel with metal holders,
- allows for simple and clear organization of cables,
- for orderly and clear cable routing in the 19" level.

Cable tidy rails

Type	Width (mm)	Depth (mm)	Height (mm)	Weight (kg)	Index
Back handle cable 19"	482	60	60	0,38	UKx-19T-G
Lateral handle cable 600 mm	500	18	60	0,45	UKB-060-G
Lateral handle cable 800 mm	700	18	60	0,65	UKB-080-G
Lateral handle cable 900 mm	800	18	60	0,75	UKB-090-G
Lateral handle cable 1000 mm	900	18	60	0,85	UKB-100-G

- organized laying and strain relief of cables via cable ties,
- cable tidy rail for side mounting on the 19" profile rails or for installation on the rear transverse to the profile frame,
- material: galvanized sheet steel.

Line-up bolts

Weight (kg)	Index
0,38	ZLS-B

- for connecting and lining up network cabinets and server cabinets,
- material: galvanized steel, M6 thread.

800	1200		9,2		CKS-8/12-G	CKS-8/12-B

- quick and easy to assemble with M6 x 8 mm bolts (supplied),
- fixing to the network cabinet with supplied screws,
- perforated front plate and three cable entries from both sides and rear,
- the base height can be increased to 200 mm by screwing two bases together.

104

Voltage distribution panel

Height (mm)	Width (mm)	Depth (mm)	Index RAL 7035	Index RAL 7021
133 (3U)	466 (19")	60	PDN-3U-G	PDN-3U-B

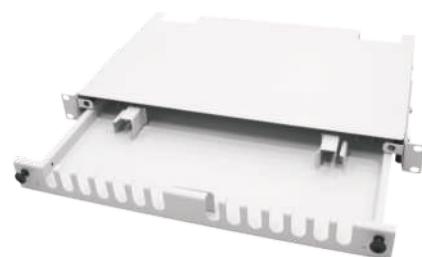

- universal 19" or 21" enclosure for modular devices,
- 1,5 mm thick sheet powder painted,
- din rail included,
- housing with 402,5 x 45,5 mm opening,
- maximum quantity of built in modules S type (width of module 17,5 mm): 18 pcs.

Drawer for cable reserve

Dimensions (mm)			Index
Width	Height	Depth	
483 (19")	1U	250	SZ-19-1U
483 (19")	2U	250	SZ-19-2U

- ideal for organizing, managing and storing cable reserve (pigtails and patchcords),
- front and rear cable entries,
- material: Sheet steel 1,5 mm,
- finish RAL 7035.

1 - Universal (SCHUCHKO + ground pin) plug

2 - Socket with Ground Pin (French and Polish standard)

3 - SCHUCHKO (Germany) socket

106

Features:

- all PDU are modularized and multi-functional power distribution units designed exclusively for cabinets,
- product series is made up of many standards of power socket modules, controlled function module, protecting function module, surge protector module, etc,
- case is made from white or oxidized to black Aluminum alloy,
- can be install horizontally (fits 1U space in 19" systems) or vertically in cabinets,
- can be install on the floor, walls or under the desk,
- standard cable length is 2,5 m,
- all PDU products are manufactured using environmentally materials and components, in accordance with the regulations of European Union RoHS directive, and we also passed test of CE sign.

Earthing set complete

Type	Index
8 connection points M6	LUP-08
10 connection points M6	LUP-10 ²
15 connection points M6	LUP-15

- for mounting in all network, server and wall-mounting cabinets,
- construction: copper earthing bar with 8/10/15 connection points.

XT100.RJ - Zaciskarka złączy modularnych RJ11/RJ12/RJ45/DEC**XT101.RJ - Zaciskarka złączy modularnych RJ11/RJ12/RJ45**

- wyposażone w obcinaczki i ściągacz izolacji,
- uniwersalne pasujące pod złącza RJ11/RJ12/RJ45,
- metalowa budowa.

Zautomatyzowane narzędzie do modułów keystone

XT101.KEY - Narzędzie dociskowe do modułów keystone Fibrain Data ECO

- automatyczne terminowanie wszystkich żył kabla instalacyjnego w module krosowniczym,
- współpraca z modułami keystone dostępnymi w systemie Fibrain Data.

XT100.KEY - Narzędzie zaciskowe do modułów keystone Fibrian Data PREMIUM

- przełożeniu siły docisku bezpośrednio na moduł keystone,
- automatyczne terminowanie wszystkich żył kabla instalacyjnego w module krosowniczym,
- współpraca z wszystkimi modułami keystone dostępnymi w systemie Fibrain Data.

Grupa Elmat jest jednym z najnowocześniejszych polskich producentów osprzętu dla współczesnej telekomunikacji. Oferta produktowa jest nieustannie poszerzana o kolejne autorskie produkty, oferowane w ramach kompleksowych rozwiązań telekomunikacyjnych sygnowanych własną marką lub produkty znanych koncernów europejskich.

W ciągu ostatnich lat firma umocniła swoją pozycję na rynku dystrybucji nowych technologii telekomunikacyjnych, w szczególności światłowodowych, wyznaczających często nowe kierunki w branży (wprowadzając na rynek produkty z zakresu mikrokanalizacji światłowodowej i rozwiązania dla sieci FTTx).

Zachęcamy do zapoznania się z pozostałą ofertą Grupy Elmat, poprzez pozostałe katalogi wybranych rozwiązań:

111

2. PON - rozwiązania z dziedziny pasywnych sieci optycznych. Rozwiązania głównie dedykowane są dla sieci FTTH. Produkty bazujące dla takich technologii jak CWDM (Coarse Wavelength Division Multiplexing), DWDM (Dense Wavelength Division Multiplexing), WDM-PON dla sieci FTTx, Cylkulatory optyczne, tłumiki i izolatory.

3. Connectivity - rozwiązania z dziedziny telekomunikacji optycznej. Technologia światłowodowa w dzisiejszych czasach jest już dostępna oraz użytkowana praktycznie w każdej gałęzi przemysłu, telekomunikacji, transporcie, systemach bezpieczeństwa oraz bardzo wielu innych segmentach rynku.

4. MetroJet - nowoczesny system mikrokanalizacji światłowodowej, w którym zastosowano specjalne mikrokable, elementy mikrokanalizacji oraz specjalną nowoczesną metodę strumieniową instalacji kabla w rurach.

5. FTTH - jako dostawca rozwiązań zdajemy sobie sprawę, iż implementacja sieci FTTH w dzisiejszych czasach napotyka na duże zróżnicowanie obszarów projektowych, wymagających stosowania nie jednej, a kilku kompatybilnych ze sobą technologii. W skład naszej oferty wchodzą rozwiązania praktycznie dla każdego obszaru topologii.

6. Logiwire - zintegrowany system okablowania tradycyjnego mieszkania. Istotnym problemem występującym w budownictwie jest brak integracji poszczególnych typów okablowania występującego w mieszkaniu abonenta. System Logiwire ma za zadanie integracje w jednej skrzynce wnękowej systemów takich jak: CATV, PHONE, COPPER DATA, FO, SECURITY i innych.
