Installer tools

Striper copper

XT100.CAB - Striper data cables PREMIUM

XT101.CAB - Striper data cables ECO

- allows for remove data cables insulation,
- adjusted for various diameters,
- equipped with cutters.

Punch Tool for IDC connectors

XT100.IDC - Punch tool for LSA/110 connectors

- terminating and cutting off the excess cable,
- the ability to disable the cutting module,
- equipped with a hook for pulling wires.

XT101.IDC - Punch tool for 110 connectors

- erminating and cutting off the excess cable,
- adjustable force L=10kG, H=15kG.

Crimping tool for RJ11/RJ12/RJ45 connectors

XT100.RJ - Crimping for RJ11/RJ12/RJ45/DEC connectors

XT101.RJ - Crimping for RJ11/RJ12/RJ45 connectors

- equipped with cutters and wire stripper,
- uniwersal suitable to RJ11/RJ12/RJ45 connectors,
- steel construction.

Automated keystone modules tool

XT101.KEY - Crimping tool for Fibrain Data keystone modules - ECO

- automatic termination of all cable wire in keystone modules,
- cooperation with keystone modules available in the Fibrain Data system .

XT100.KEY - Crimping tool for Fibrain Data keystone modules - PREMIUM

- clamping force directly on keystone module,
- automatic termination of all cable wire in keystone modules,
- cooperation with all keystone modules available in the Fibrain Data system.
